7692/1 - Paper 1 Listening, Reading and Writing
Mark scheme

June 2018

Version/Stage: 1.0 Final

Mark schemes are prepared by the Lead Assessment Writer and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation events which all associates participate in and is the scheme which was used by them in this examination. The standardisation process ensures that the mark scheme covers the students' responses to questions and that every associate understands and applies it in the same correct way. As preparation for standardisation each associate analyses a number of students' scripts. Alternative answers not already covered by the mark scheme are discussed and legislated for. If, after the standardisation process, associates encounter unusual answers which have not been raised they are required to refer these to the Lead Assessment Writer.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of students' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

Further copies of this mark scheme are available from aqa.org.uk

Section A**Comprehension questions to be answered in target language but with no AO3 marks**

Where the natural answer to a question consists entirely or partly of words or phrases from the recording or text, students may use that material without rephrasing it. Errors which do not distort the meaning will be tolerated. However, the AO1 mark will not be awarded for a response in which the student includes irrelevant material or copies inappropriately from the stimulus, eg by 'lifting' an element from the original which does not match the phrasing of the question set.

Level of response marking instructions

Level of response mark schemes are broken down into levels, each of which has a descriptor. The descriptor for the level shows the average performance for the level. There are marks in each level.

Before you apply the mark scheme to a student's answer read through the answer and annotate it (as instructed) to show the qualities that are being looked for. You can then apply the mark scheme.

Step 1 Determine a level

Start at the lowest level of the mark scheme and use it as a ladder to see whether the answer meets the descriptor for that level. The descriptor for the level indicates the different qualities that might be seen in the student's answer for that level. If it meets the lowest level then go to the next one and decide if it meets this level, and so on, until you have a match between the level descriptor and the answer. With practice and familiarity you will find that for better answers you will be able to quickly skip through the lower levels of the mark scheme.

When assigning a level you should look at the overall quality of the answer and not look to pick holes in small and specific parts of the answer where the student has not performed quite as well as the rest. If the answer covers different aspects of different levels of the mark scheme you should use a best fit approach for defining the level and then use the variability of the response to help decide the mark within the level, ie if the response is predominantly level 3 with a small amount of level 4 material it would be placed in level 3 but be awarded a mark near the top of the level because of the level 4 content.

Step 2 Determine a mark

Once you have assigned a level you need to decide on the mark. The descriptors on how to allocate marks can help with this. The exemplar materials used during standardisation will help. There will be an answer in the standardising materials which will correspond with each level of the mark scheme. This answer will have been awarded a mark by the Lead Examiner. You can compare the student's answer with the example to determine if it is the same standard, better or worse than the example. You can then use this to allocate a mark for the answer based on the Lead Examiner's mark on the example.

You may well need to read back through the answer as you apply the mark scheme to clarify points and assure yourself that the level and the mark are appropriate.

Indicative content in the mark scheme is provided as a guide for examiners. It is not intended to be exhaustive and you must credit other valid points. Students do not have to cover all of the points mentioned in the Indicative content to reach the highest level of the mark scheme.

An answer which contains nothing of relevance to the question must be awarded no marks.

Summary questions

The marks for content (AO1) and language (AO3) are awarded independently. Long summaries will be marked for content (AO1) or language (AO3) only as far as the first natural break (usually the end of a sentence or main clause) between 90 and 100 words. Short summaries are not subject to an automatic penalty but in practice are unlikely to include all the required content points and will therefore be self-penalising.

The AO1 mark is awarded for content points which contain the required information, regardless of whether those points are expressed in the student's own words, or are partly or wholly lifted from the recording or text. However, no AO1 mark will be awarded for a content point where the student includes irrelevant material or copies inappropriately from the stimulus, eg by 'lifting' an element from the original which does not match the phrasing of the bullet point.* 'Lifted' language will not be eligible for credit when the AO3 mark is awarded.

*Example:

1

Text includes: *Toda la mañana llovió a cántaros, así que no fue al mercado*

Summary task includes the bullet point: *por qué no fue al mercado*

Student writes in response to that bullet point: *Toda la mañana llovió a cántaros, así que no fue al mercado.*

No credit for AO1 because the response does not match the phrasing of the bullet point. Also no credit for AO3 because of lifting.

2

Text includes: *Carmen dijo que nunca se haría un tatuaje como habían hecho muchas de sus amigas*

Summary task includes the bullet point: *lo qué habían hecho las amigas de Carmen*

Student writes in response to that bullet point: *Carmen dijo que nunca se haría un tatuaje como habían hecho muchas de sus amigas*

No credit for AO1 because the response does not match the phrasing of the bullet point. Also no credit for AO3 because of lifting.

Serious errors are defined as those which affect communication.

Minor errors include:

Incorrect spelling (unless the meaning is changed)

Accents (unless the meaning is changed)

Confusion of noun/adjective eg *peligro/peligroso*

Occasional slips in gender/adjectival agreements

Serious errors include:

Incorrect verb forms

Incorrect use of pronouns

Errors in basic idiomatic expressions eg *es muy calor: soy 17.*

Mark	AO3 quality of language marks in listening and reading summary tasks
5	The language produced is mainly accurate with only occasional minor errors. The student shows a consistently secure grasp of grammar and is able to manipulate complex language accurately where required by the task.
4	The language produced is generally accurate, but there are some minor errors. The student shows a generally good grasp of grammar and is often able to manipulate complex language accurately where required by the task.
3	The language produced is reasonably accurate, but there are a few serious errors. The student shows a reasonable grasp of grammar and is sometimes able to manipulate complex language accurately where required by the task.
2	The language produced contains many errors. The student shows some grasp of grammar and is occasionally able to manipulate complex language accurately where required by the task.
1	The language produced contains many errors of a basic nature. The student shows little grasp of grammar and is rarely able to manipulate complex language accurately where required by the task.
0	The student produces nothing worthy of credit.

Guidance on level of accuracy in translations into the target language

Errors of accent

Errors of accent are accepted unless (a) they are grammatical or (b) the inclusion of the accent(s) causes ambiguity.

Errors of spelling

Errors of spelling will not be tolerated.

Tense endings, irregular verb forms and adjective endings must be correct.

Errors of gender

Errors of gender will not be tolerated. Genders of nouns are clearly an area where guidance can be provided in the passage that supports the translation task.

Alternative answers

Alternative answers offered by the candidate – even if one is in brackets – will be rejected unless both answers are correct.

A successful translation

A successful translation is one which includes each element of the text to be translated and where there is no omission or paraphrase.

Repeated errors

Where a candidate repeats the same error within a question, no further penalty will be imposed in awarding the mark.

Acceptable quality of English in translations into English**Errors in spelling**

Where the candidate's attempted spelling is a recognisable form of the correct spelling and does not correspond to another English word, the attempted spelling is accepted eg *weight* mis-spelt as *waight* is acceptable but mis-spelt as *wait* gives another word and so causes ambiguity.

Alternative answers

Examiners will be provided with a range of alternative answers in mark-schemes but in the event that these do not legislate for all versions and variations which candidates might produce, the guiding principle will be that answers that convey the same intended meaning are accepted.

Successful translation

Translation will be deemed successful if an English speaker would understand the translation and if each element of the original text figures in the translation.
