UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

GCE Advanced Subsidiary Level and GCE Advanced Level

MARK SCHEME for the October/November 2010 question paper for the guidance of teachers

9705 DESIGN AND TECHNOLOGY

9705/11

Paper 1, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

			GCE A/A3 LEVEL - October/November 2010	9705	SC.	
5	(a)	Sketches	es and notes explain what the male and female formers loo	ok like	ana	Ship
	(b)	Problem e.g. Prob	n 1 described n 2 described blems related to the tray being hard to pick up and thing the ends	gs being able to	(0-2) (0-2)	Shidge com
	(c)	Explanat	ation of how problem 1 could be solved ation of how problem 2 could be solved at holes made more accessible, lip goes all the way round	the tray.	(0-3) (0-3)	[6]
	(d)	Explanat	n has been analysed and relevant issues/points identified tion of why issues/points are considered relevant examples/evidence used to support conclusions		(0-3) (0-3) (0-3)	[8]
					[Total:	_
6	(a)		riate explanation of function of feature X ated to helping to prevent steps slipping or damaging surfa	aces or people.	(0–2)	[2]
	(b)	Problem	n 1 described n 2 described blems related to stability, safety, steps collapsing.		(0-2) (0-2)	[4]
	(c)	Explanat	ition of how problem 1 could be overcome ition of how problem 2 could be overcome ra bracing pieces need to be added to both sides and back	k legs.	(0-3) (0-3)	[6]
	(d)	Explanat	n has been analysed and relevant issues/points identified tion of why issues/points are considered relevant examples/evidence used to support conclusions		(0-3) (0-3) (0-3)	[8]
					[Total:	20]

Page 5	Mark Scheme: Teachers' version	Syllabus	er
	GCE A/AS LEVEL – October/November 2010	9705	200

7 (a) One pre-conceived idea presented

OR

The development and selection of a range of ideas into a single design proposal which would appear to work but lacks some technical detail

The development and selection of a range of ideas into a single design proposal that includes sufficient technical detail to show that the proposed solution would clearly work (8-10)

Clarity and quality of sketching and explanatory notes (0-3)

(0-3) [16] Evaluation (reasons for selection)

(b) As for part (a) [16]

[16] (c) As for part (a)

(d) As for part (a) [16]

(e) The drawing will exhibit a reasonable standard of outcome and show some of the required design features (0-3)OR

The drawing will exhibit a good standard of outcome and show, most of the design features required to make the product function as intended (4-7)OR

The drawing will be completed to a high standard of outcome and fully show the design features required to make the product function as intended (8-10)

Some use made of colour and tone to enhance the visual impact of the drawing (0-2)OR

Good use has been made of colour and tone to enhance the visual impact of the drawing (3-4)OR

Very good use has been made of colour, tone and material representation to

enhance the visual impact of the drawing (5-6) [16]

[Total: 80]

Questions 8 and 9 as for Question 7
