QUESTION PAPER UPDATE NOTICE
for the October/November 2015 series

4040 STATISTICS

4040/23

Paper 2

Please note that there was a typographical error in the table on page 14, which has been corrected in this version: the sixth value for the *Four-quarter total* should have been 228.2, not 228.8. The four other values in the table depending on this one have also been changed accordingly. Candidates were awarded full marks for any correct work following from these values.
