This image shows a full page of white paper with horizontal dotted lines. The lines are evenly spaced and run across the width of the page, providing a guide for handwriting practice. There are no margins, text, or other markings on the page.

Part 3: Translation

Translate the following passage into **Urdu** (20 marks).

Education plays a significant role in creating successful people. Skills and knowledge learnt at school open up the variety of opportunities available to young people. Through education, we learn to deal with challenges and to overcome obstacles. We learn new ways of working and how to respect other cultures which provide important social and economic benefits in the future.

The opportunity to expand our knowledge and interests is not just limited to the classroom. Educational trips mean that we can apply our classroom knowledge to real life and to see how the different subjects are interconnected. In very real terms, what you learn in the classroom can have an effect on the world. For example, in order for the space station to be operational, people with design and mathematics skills were needed to build it, knowledge of physics to launch it, and people with medical, nutrition and health knowledge in order to send people to live on it.

Our entire life is a process of learning and gaining new and useful knowledge. We should always remember that attaining a good quality education is imperative in today's society since it is considered a strong foundation of a successful future.
