UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the November 2005 question paper

ACOUNTING

0452/03

Paper 3

maximum raw mark 100

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were initially instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published Report on the Examination.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the *Report on the Examination*.

The minimum marks in these components needed for various grades were previously published with these mark schemes, but are now instead included in the Report on the Examination for this session.

CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the November 2005 question papers for most IGCSE and GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

[9]

(c) Any two of the following:

Reflect what has happened in the past – significant events may have taken place since the end of the financial year.

Transactions are recorded at their actual cost – inflation may affect these figures.

Accounts only include information that can be expressed in monetary terms – and so many factors will not appear in the accounting statements.

The accounts provided are for one year only – accounts for previous years would allow meaningful ratios to be prepared.

Or other relevant points.

Any one point (1) mark for statement and (1) for development.

Any two points up to (2) each [4]

Total [20]
