

Syllabus update

Cambridge IGCSE Art and Design 0400 (for examination in June and November 2016)

We have updated this syllabus. The latest syllabus is version 2, updated in February 2015.

Assessment at a glance on page 7 has been revised to clarify wording relating to the size of work submitted for each component.

Changes have been made to pages 24, 25 and 26. References to teacher accreditation have been removed.

We want to ensure that all teachers involved in the assessment of Cambridge IGCSE Coursework can access and benefit from the training materials and opportunities provided by Cambridge. Therefore we are discontinuing the teacher accreditation process for Cambridge IGCSE coursework assessors. Guidance on the delivery and assessment of Cambridge coursework will be available on our Teacher Support site from January 2016.

The last exam series requiring teacher accreditation for the marking of Cambridge IGCSE coursework will be November 2015.

We understand that some teachers may already have applied for accreditation for the June 2016 series. If this is the case, you can still complete the accreditation process, as long as you submit your application by 15 October 2015.
