MARK SCHEME

Maximum Mark: 60

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2020 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

This document consists of **66** printed pages.

PUBLISHED**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Applying the Mark Scheme

- When marking a response the overall criterion to be considered should be – ‘How good is this response to this question?’
- The Level Descriptor should be used to decide the level into which the quality of the answer fits.
- Exhaustive lists of possible facts are not given in the mark scheme, as there is often a choice of factual knowledge that candidates may use.
- **WHERE EXAMPLES OF RESPONSES ARE GIVEN, THESE ARE NOT PRESCRIPTIVE, BUT ARE INTENDED AS A GUIDE.** It is not possible to cover every possible type of response within a levels of response mark scheme and examiners are expected to use their professional judgement at all times in ensuring that responses are placed in the correct level and given an appropriate mark within that level.
- Marking must be positive. Marks must not be deducted for inaccurate or irrelevant parts of answers. In itself, poor use of historical terminology, spelling, grammar or handwriting does not affect the mark. The overall quality of the answer to the question should be judged.
- If a candidate reaches a particular level, s/he must be rewarded with a mark within that level. It is not necessary to work through the levels.
- The full range of marks should be used. Do not be afraid to award full marks or no marks. Failure to do this will seriously affect the distribution of marks. Be prepared to reward candidates who show any level of understanding. The mark scheme starts from basic acceptable response. Where a band of marks is indicated for a level, these marks should be used with reference to the development of the answer within that level.

1(c)	<p>'The Pope was the biggest obstacle to Italian unification in 1848-49.' How far do you agree with this statement? Explain your answer.</p> <p>Level 5 Explains with evaluation of 'how far' As Level 4 plus evaluation.</p> <p>Level 4 Explanation of both sides</p> <p>A L4 answer will have a minimum of three explanations (2 on one side; 1 on the other). This will be worth a mark of 7. Fuller explanation of one issue to be given two marks. An answer which only has one explanation on one side of the argument cannot be awarded more than 8.</p> <p>Level 3 One-sided explanation OR one explanation of both sides 5-6 marks More detailed explanation of one issue to be given two marks.</p> <p><i>e.g. 'Most nationalists looked upon Pius as a possible leader of a new Italy. He had influence over Italian Catholics and had sizeable military forces. He had been known as the reforming Pope and therefore ideal for new Italian state. However, when he issued his Allocution all this changed. First, he favoured the Risorgimento and then he appeared to be against it with the Allocution. Nationalists were shocked because Pius went from one extreme to another. Some troops refused to fight with Charles Albert because of his change of mind.'</i></p> <p>OR</p> <p><i>e.g. 'There were other barriers to unification which were more significant. For instance, Austria defeated Charles Albert's forces in 1848-49 and so could be considered more important than the Pope. 2(b)	Why was the Ems telegram important?	6
	Level 4 Explains TWO reasons	6
	Level 3 Explains ONE reason (Four marks for one explanation, five marks for full explanation) <i>e.g. 'The Ems telegram was important because it was used by Bismarck to provoke France into being hostile and this gave him an excuse for war. The telegram was a report of a meeting between King William I of Prussia and the French ambassador which was sent to Bismarck. He published the telegram, missing out key details, to offend the French government. In turn, this led to the Franco-Prussian War.'</i>	4–5

Question	Answer	Marks
2(c)	<p>Level 3 One-sided explanation OR one explanation of both sides 5–6 marks More detailed explanation of one issue to be given two marks.</p> <p><i>e.g. 'Bismarck used diplomacy to achieve his aims. When Schleswig-Holstein was handed over to be ruled jointly by Austria and Prussia, they could not agree, and the territories were split. Some think Bismarck deliberately agreed so that it would be easier to pick a quarrel with Austria. Bismarck also managed to get a promise of French neutrality and relied on British and Russian neutrality. With this control, he picked a war with Austria.'</i></p> <p>OR</p> <p><i>e.g. 'Bismarck used war to ensure he achieved his aims. As a follower of Clausewitz, he saw war as political tool to help him achieve his goals, as can be seen in the Unification Wars of 1864–71. There had also been considerable investment in the Prussian economy to produce the weapons of war. Moltke and his generals had produced a well-equipped and trained army which was superior to Austria's. This shows that Bismarck could use force when he wanted to as he had a very strong army at his disposal.'</i></p>	4–6

	<p>Level 4 Explains TWO reasons 6</p>	
	<p>Level 3 Explains ONE reason 4–5 (Four marks for one explanation, five marks for full explanation)</p> <p><i>e.g. ‘The policy worked well because it allowed the local rulers to continue to hold power. This meant they were less likely to oppose British control. The British ruled using the indigenous chiefs who were encouraged to rule as they had always done, administering justice. The Foreign Office only recommended interference if a chief abused his powers and then he could be removed and replaced.’</i></p>	
	<p>Level 2 Identifies AND/OR describes reasons 2–3 (One mark for each identification/description)</p> <p><i>e.g. ‘Day to day government was left to the traditional rulers.’</i> <i>‘These rulers gained stability and were given protection by Britain.’</i> <i>‘The rulers often had a small number of British advisors.’</i> <i>‘Britain took control of external affairs, often taxation and communications.’</i> <i>‘It was cheaper and easier than direct rule.’</i> <i>‘It did not annoy the ‘locals’ as much as direct rule.’</i></p>
