Paper 2 (Extended)

October/November 2019

MARK SCHEME

Maximum Mark: 70

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2019 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **5** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

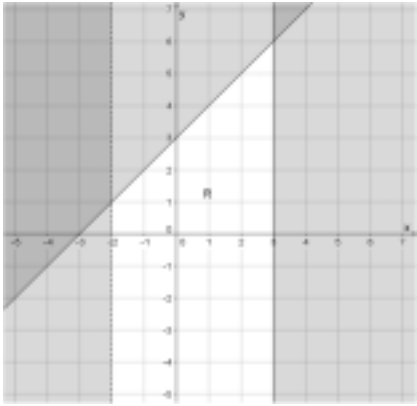

GENERIC MARKING PRINCIPLE 6:

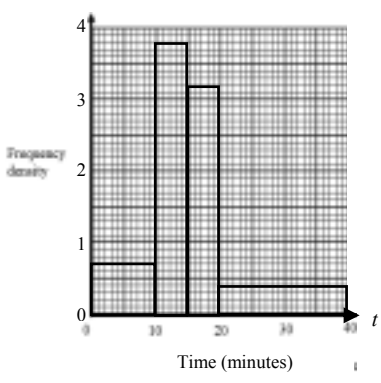

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Abbreviations

cao	correct answer only
dep	dependent
FT	follow through after error
isw	ignore subsequent working
oe	or equivalent
SC	Special Case
nfww	not from wrong working
soi	seen or implied

Question	Answer	Marks	Partial Marks
1	-10	1	
2	2	1	
3(a)	27	1	
3(b)	47	1	
4	21	2	M1 for [84 =] $2 \times 2 \times 3 \times 7$ or [105 =] $3 \times 5 \times 7$ or 3×7 as final answer or B1 for 3 or 7 as final answer
5(a)	1100 cao	1	
5(b)	1.8×10^{-3}	1	
6	$x^2 + 8x + 15$ final answer	2	M1 for three terms correct from $x^2 + 3x + 5x + 15$
7	$-\frac{2}{5}$ or -0.4	2	M1 for gradient = $\frac{5}{2}$ oe soi
8(a)	60	1	
8(b)	120	1	FT 180 – <i>their</i> (a) providing answer is an obtuse angle
9	286	3	M2 for [2 ×] ($5 \times 7 + 5 \times 9 + 7 \times 9$) oe or M1 for one correct from 5×7 or 5×9 or 7×9
10	30	3	M1 for $\frac{391+n+n-1}{3} = 5n$ oe M1 for correct first step for solving <i>their</i> equation e.g. $391+n+n-1 = 3 \times 5n$, $\frac{390+2n}{3} = 5n$
11(a)	$3(4x + 5)$	1	
11(b)	$(x + 3)(y - 2)$	2	B1 for $y(x + 3) - 2(x + 3)$ or $x(y - 2) + 3(y - 2)$ or correct answer seen then spoilt

Question	Answer	Marks	Partial Marks
12	13	3	M2 for $\sqrt{(9-(-3))^2 + (4-(-1))^2}$ oe or M1 for $(9-(-3))^2 + (4-(-1))^2$ oe
13	2.75 oe	3	M2 for $6--5=2(3k-k)$ oe or better or M1 for $\frac{6--5}{3k-k}$ oe If 0 scored, SC1 for -2.75 oe as answer
14(a)	$\frac{1}{2n}$ oe final answer	1	
14(b)	5^{n-1} oe final answer	2	M1 for recognition of terms being powers of 5
15	$\frac{2}{12}$ oe or $\frac{1}{2} \times \frac{1}{3}$	$\frac{2}{3} \left(1 + \frac{1}{4}\right)$	M1 M1 for correct first step to deal with multiplication
	$\frac{8}{12} [+] \frac{2}{12}$ oe	$\frac{2}{3} \times \frac{5}{4}$	M1 M1 for correct working for common denominator with <i>their</i> $\frac{2}{12}$ oe or correct evaluation of bracket
	$\frac{5}{6}$ cao		A2 A1 for $\frac{10}{12}$ oe
16(a)	200	2	M1 for figs 2 or correct unit conversion
16(b)	4.59×10^{50}	2	B1 for figs 459
17(a)	12.88	1	
17(b)	two correct points plotted	1	
17(c)	acceptable line of best fit within tolerance	1	
17(d)	negative	1	
18		4	B1 for $x = -2$ dashed ruled line and $x = 3$ solid ruled line B1 for $y = x + 3$ solid ruled line B2 for indication of correct region or B1 for shading that satisfies two of the inequalities, e.g. two of $x > -2$, $x \leq 3$ and $y \leq x + 3$

Question	Answer	Marks	Partial Marks
19(a)	16	2	B1 for $x^4 = 2$
19(b)	$(y+3)^2 - 8$	2	B1 for $(y+3)^2 + k$ or $(y+k)^2 - 8$
20(a)	$\frac{200}{x^2}$	2	M1 for $t = \frac{k}{x^2}$ oe
20(b)	10	2	M1 for $x^2 = \frac{\text{their } k}{2}$
21(a)	2, 3, 4 11, 14, 17	2	B1 each FT <i>their</i> domain if list of integers
21(b)	Stretch [factor] $\frac{1}{3}$ <i>x</i> -axis invariant	3	B1 each
22	16	5	M4 for $\left(\pi \times 5^2 \times 12 - \frac{1}{3} \times \pi \times 5^2 \times 6 \right) \div (\pi \times 5^2)$ or M3 for $\pi \times 5^2 \times 12 - \frac{1}{3} \times \pi \times 5^2 \times 6$ or M1 for $\pi \times 5^2 \times 12$ M1 for $\frac{1}{3} \times \pi \times 5^2 \times 6$ M1 for $(\text{their cylinder vol} - \text{their cone vol}) \div \pi \times 5^2$
23(a)	$10 < t \leq 15$	1	
23(b)	Correct histogram 	3	B1 for each correct block If 0 scored, SC1 for correct frequency densities 3.8, 3.2, 0.4 soi by correct heights
