Paper 1

**October/November 2019**

MARK SCHEME

Maximum Mark: 80

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2019 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

---

This document consists of **29** printed pages.

**PUBLISHED****Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

**GENERIC MARKING PRINCIPLE 1:**

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

**GENERIC MARKING PRINCIPLE 2:**

Marks awarded are always **whole marks** (not half marks, or other fractions).

**GENERIC MARKING PRINCIPLE 3:**

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

**GENERIC MARKING PRINCIPLE 4:**

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

**GENERIC MARKING PRINCIPLE 5:**

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

**GENERIC MARKING PRINCIPLE 6:**

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

| Question | Answer   | Marks    |
|----------|--|----------|
| 1(a)     | <p><b>From Source A identify two types of question being used in the social survey.</b></p> <p>Acceptable responses:</p> <p>Open questions, closed questions, pre-coded or scaled questions.</p> <p><b>One</b> mark for each method correctly identified from Source A (up to a maximum of <b>two</b>).</p>  | <b>2</b> |
| 1(b)     | <p><b>Identify two primary methods that could be used to study youth sub-culture, apart from social surveys.</b></p> <p>Possible answers:</p> <ul style="list-style-type: none"> <li>• interviews – unstructured, semi-structured, structured, group interviews, focus group</li> <li>• observation – participant or non-participant, covert or overt</li> <li>• case study</li> <li>• experiment</li> <li>• questionnaire</li> <li>• content analysis</li> <li>• other reasonable response.</li> </ul> <p><b>One</b> mark for each method correctly identified (up to maximum of <b>two</b>).</p> | <b>2</b> |

| 1(g)     | <p><b>Arguments Against –</b></p> <ul style="list-style-type: none"> <li>• positivists argue that methods that yield quantitative data are more likely to be ‘objective’ and thus avoid subjectivity and bias</li> <li>• trying to reach ‘objectivity’ is an exercise in deliberately considering your topic, question, or interpretation from many different angles thus reducing bias</li> <li>• conducting a pilot study can help to detect unintentional bias in the framing of questions</li> <li>• ensuring that the social characteristics of the researcher are not a barrier to open and honest responses</li> <li>• asking other researchers, or the respondents, to check summaries and conclusions drawn from the data can guard against subjectivity and bias creeping in</li> <li>• the researcher can reflect on the values and objectives they bring to research and how these affect the research project</li> <li>• some but not all sociological research may be biased</li> <li>• by mixing methods and using triangulation a researcher can minimise the impact of subjectivity on research</li> <li>• any other reasonable response.</li> </ul> |       |

| Question | Answer  | Marks |
|----------|---|-------|
| 1(g)     | <p><b>Band 0 [0 marks]</b><br/>No creditworthy response</p> <p><b>Band 1 [1–4 marks]</b><br/>Answers in this band may be vague and largely based on common sense showing limited knowledge of the debate. Use of sociological terms or concepts is very unlikely. Responses may be short, undeveloped and one-sided. Lower in the band (1–2 marks), expect one or two weak points. Higher in the band (3–4 marks) candidates may offer more than two points and provide a weak definition of key terms in the question.</p> <p><b>Band 2 [5–8 marks]</b><br/>In this band candidates will show some basic knowledge of the debate. Alternatively, they may offer an answer which is list-like in nature but there will be no real attempt to assess the issues raised by the question. There may be limited/some use of sociological terms or concepts. Responses may be underdeveloped and lack range. Answers may be simplistic and two-sided or only cover one side of the debate. Lower in the band, the response may be rather narrow in the points covered and there may be some development. Higher in the band, more points are likely to be covered with some development. Alternatively, a list-like answer with some development covering both sides of the argument may score up to 8 marks.</p> <p><b>A one-sided answer cannot score higher than 8 marks.</b></p> <p><b>Band 3 [9–12 marks]</b><br/>Answers in this band will show good sociological knowledge and understanding of the debate. Sociological terms and concepts will be used with greater accuracy and/or frequency. For the most part, answers will be well developed, focused on the questions and there will be a range of points presented. There will be a two-sided response, but it may lack range on one side. At the bottom of the band, candidates may provide a narrower range of developed points. At the top of the band, expect a wider range of developed points and clear focus on the question.</p> <p><b>Band 4 [13–15 marks]</b><br/>Answers in this band will show excellent knowledge and understanding of the debate. There will be a strong grasp of the arguments as well as accurate and frequent use of sociological terms and concepts. Answers will be well developed, clearly focused on the question and discuss a wide range of points. Responses will be two-sided and have a range of points on each side. At the bottom of the band (13 marks), the answer may lack a specific conclusion. Higher in the band, there will be a clear attempt to offer an assessment of the ‘To what extent ...?’ part of the question through a focused conclusion.</p> |       |

| Question | Answer   | Marks    |
|----------|--|----------|
| 2(a)     | <p><b>What is meant by the term ‘youth sub-culture’?</b></p> <p><b>One</b> mark for partial definition, e.g. a group like punks.</p> <p><b>Two</b> marks for clear definition, e.g. a small group of young people who share the same norms and values, sometimes conflicting with mainstream culture.</p>  | <b>2</b> |
| 2(b)     | <p><b>Describe two reasons why some males join sub-cultures.</b></p> <p>Possible answers:</p> <ul style="list-style-type: none"> <li>• peer pressure – the desire for inclusion and threat of ostracism may influence some to join sub-cultures</li> <li>• style – the fashion sense and types of clothes worn may draw some young people to a sub-culture, e.g. Goths</li> <li>• music – the songs and lyrics of a particular genre of music may influence some to join the sub-culture, e.g. the rebellious musical style of punk or the depressive nature of some emo music</li> <li>• sense of belonging – some youths may feel alienated from society and hence join a sub-culture to gain acceptance</li> <li>• safety valve – functionalists argue that sub-cultures may help youngsters to manage what is often a difficult transition from childhood into adulthood</li> <li>• rebellion – Marxists may argue that some working-class youths join sub-cultures to resist and protest against the values of capitalism</li> <li>• to show their masculinity, e.g. in gangs</li> <li>• any other reasonable response.</li> </ul> <p><b>One</b> mark for each reason correctly identified (up to maximum of two).<br/> <b>One</b> mark for each reason that is developed (up to a maximum of two).</p> | <b>4</b> |

| 3(c)     | <p><b>Band 0 [0 marks]</b><br/>No creditworthy response</p> <p><b>Band 1 [1–3 marks]</b><br/>Answers in this band will show only a limited awareness of the question. Responses may be short and un/underdeveloped. At the bottom of the band (1 mark), expect one weak point. Higher in the band (2–3 marks), candidates may offer more than one weak point, but there may be a tendency towards simplistic answers, engaging with sociological ideas without using sociological language.</p> <p><b>Band 2 [4–6 marks]</b><br/>Answers in this band will have clear and accurate explanation, showing good sociological knowledge and understanding. Sociological terms and concepts should be expected and explained. At the bottom of the band, the range of points covered may be narrow or lack detail. Higher in the band, answers will cover more than one point in a well-developed way or cover several points in less detail.</p> |       |

| 3(d)     | <p><b>Band 0 [0 marks]</b><br/>No creditworthy response</p> <p><b>Band 1 [1–3 marks]</b><br/>Answers in this band will show only a limited awareness of the question. A tendency to description is likely. Responses may be short and undeveloped and points stated without explanation. Sociological terms and concepts are unlikely to be used. At the bottom of the band (1 mark), expect one weak point. Higher in the band (2–3 marks), candidates may offer more than one weak point.</p> <p><b>Band 2 [4–6 marks]</b><br/>Answers in this band will show basic sociological knowledge and understanding. Responses may be underdeveloped and lacking in range. At the bottom of the band, candidates are unlikely to use sociological terms and concepts accurately. Higher in the band, candidates may be beginning to use sociological terms and concepts with greater accuracy. However, some aspects of the answer may only be partially developed/explained.</p> <p><b>Band 3 [7–8 marks]</b><br/>Answers in this band will show good sociological knowledge and understanding and will be well developed and explained. Sociological terms and concepts will be used accurately overall. Answers will be well focused on the question and there will be a range of points presented. At the top of the band explanations will be clear throughout.</p> |       |

| Question | Answer  | Marks |
|----------|---|-------|
| 3(e)     | <p><b>Arguments against –</b></p> <ul style="list-style-type: none"> <li>• Marxist/socialist feminists argue that social class alone cannot fully explain inequality and that traditional Marxist views are ‘gender blind’, gender inequality must be factored in</li> <li>• radical feminists argue that patriarchy is the first and most universal oppression</li> <li>• functionalists argue that society now gives equal opportunities to all classes, e.g. via a meritocratic education system so individuals are not bound by their class and can achieve top positions in the social hierarchy</li> <li>• ethnic and racial prejudice and discrimination is just as important as social class in understanding inequality in modern societies</li> <li>• there is no single or main cause of inequality, so age inequality is an important source of inequality with discrimination against both the very young and the very old, e.g. negative labelling in the media</li> <li>• Sociologists need to examine the intersections between the various kinds of inequality in order to get an accurate picture</li> <li>• New Right thinkers argue that the underclass have developed a set of pathological values that promote a culture of welfare dependency, so it is not class or poverty as such but an individual’s attitude to it that determines life chances</li> <li>• postmodernist sociologists argue that social class no longer determines a person’s identity or life chances, instead they have choices and the power to make of their life what they wish</li> <li>• it is possible to overcome social inequality via the self-negating prophecy, so negative labelling in society has the effect of motivating individuals to better their social position</li> <li>• any other reasonable response.</li> </ul> |       |

| Question | Answer  | Marks |
|----------|---|-------|
| 3(e)     | <p><b>Band 0 [0 marks]</b><br/>No creditworthy response</p> <p><b>Band 1 [1–4 marks]</b><br/>Answers in this band may be vague and largely based on common sense showing limited knowledge of the debate. Use of sociological terms or concepts is very unlikely. Responses may be short, undeveloped and one-sided. Lower in the band (1–2 marks), expect one or two weak points. Higher in the band (3–4 marks) candidates may offer more than two points and provide a weak definition of key terms in the question.</p> <p><b>Band 2 [5–8 marks]</b><br/>In this band candidates will show some basic knowledge of the debate. Alternatively, they may offer an answer which is list-like in nature but there will be no real attempt to assess the issues raised by the question. There may be limited/some use of sociological terms or concepts. Responses may be underdeveloped and lack range. Answers may be simplistic and two-sided or only cover one side of the debate. Lower in the band, the response may be rather narrow in the points covered and there may be some development. Higher in the band, more points are likely to be covered with some development. Alternatively, a list-like answer with some development covering both sides of the argument may score up to 8 marks.</p> <p><b>A one-sided answer cannot score higher than 8 marks.</b></p> <p><b>Band 3 [9–12 marks]</b><br/>Answers in this band will show good sociological knowledge and understanding of the debate. Sociological terms and concepts will be used with greater accuracy and/or frequency. For the most part, answers will be well developed, focused on the questions and there will be a range of points presented. There will be a two-sided response but it may lack range on one side. At the bottom of the band, candidates may provide a narrower range of developed points. At the top of the band, expect a wider range of developed points and clear focus on the question.</p> <p><b>Band 4 [13–15 marks]</b><br/>Answers in this band will show excellent knowledge and understanding of the debate. There will be a strong grasp of the arguments as well as accurate and frequent use of sociological terms and concepts. Answers will be well developed, clearly focused on the question and discuss a wide range of points. Responses will be two-sided and have a range of points on each side. At the bottom of the band (13 marks), the answer may lack a specific conclusion. Higher in the band, there will be a clear attempt to offer an assessment of the ‘To what extent ...?’ part of the question through a focused conclusion</p> |       |
