Paper 2 Case Study

**May/June 2019**

MARK SCHEME

Maximum Mark: 80

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the May/June 2019 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

---

This syllabus is regulated for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

---

This document consists of **14** printed pages.

**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

**GENERIC MARKING PRINCIPLE 1:**

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

**GENERIC MARKING PRINCIPLE 2:**

Marks awarded are always **whole marks** (not half marks, or other fractions).

**GENERIC MARKING PRINCIPLE 3:**

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

**GENERIC MARKING PRINCIPLE 4:**

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

**GENERIC MARKING PRINCIPLE 5:**

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

**GENERIC MARKING PRINCIPLE 6:**

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Question	Answer	Marks
1(a)	<p><b>Identify and explain <u>two</u> reasons why the Government helped Peter start up his new business.</b></p> <p>Knowledge [2 × 1] Award one mark for each relevant reason            Analysis [2 × 1] Award one mark for an explanation of each reason            Application [2 × 2] Award two application marks for each reason</p> <p>Answers are likely to include:</p> <ul style="list-style-type: none"> <li>• To increase employment/reduce unemployment – often in particular areas</li> <li>• To increase economic growth – generate income and tax revenue</li> <li>• To increase competitiveness – particularly in markets where there are few businesses competing</li> </ul> <p>Indicative response:            To increase employment (k) as Peter will need to employ other workers to convert vans (ap). By giving Peter a grant to start his own business (ap) this will reduce unemployment in the area and increase incomes (an).</p> <p>Possible application marks:            Motorhome; van conversion; changes vans and large cars; sole trader business; started 2 years ago; plans to expand by offering additional services; needs 3 new skilled and experienced workers; the business Peter worked for failed.</p> <p>There may be other examples in context that have not been included here.</p>	8

Question	Answer	Marks														
1(b)	<p><b>Consider the following <u>three</u> pricing methods VC could use for its new products. Which method should Peter choose? Justify your answer.</b></p> <p><b>Relevant points might include:</b></p> <table border="1" data-bbox="316 416 1313 860"> <tbody> <tr> <td data-bbox="316 416 582 555">Penetration pricing</td> <td data-bbox="582 416 1313 555"> <ul style="list-style-type: none"> <li>• Helps a new service enter the market</li> <li>• Helps to ensure sales are made</li> <li>• Lower price may mean lower gross profit</li> </ul> </td> </tr> <tr> <td data-bbox="316 555 582 723">Price skimming</td> <td data-bbox="582 555 1313 723"> <ul style="list-style-type: none"> <li>• Help establish the business as a high quality service</li> <li>• May put off many customers as the price is too high</li> </ul> </td> </tr> <tr> <td data-bbox="316 723 582 860">Cost plus pricing</td> <td data-bbox="582 723 1313 860"> <ul style="list-style-type: none"> <li>• Easy to apply</li> <li>• Could lose sales if selling price higher than competitors</li> </ul> </td> </tr> </tbody> </table> <p>Knowledge/Analysis/Evaluation – award up to 10 marks using the levels-based mark scheme below.</p> <table border="1" data-bbox="316 1014 1313 1621"> <thead> <tr> <th data-bbox="316 1014 480 1079"></th> <th data-bbox="480 1014 1313 1079">Knowledge/Analysis/ Evaluation</th> </tr> </thead> <tbody> <tr> <td data-bbox="316 1079 480 1350">Level 3</td> <td data-bbox="480 1079 1313 1350">           At least 2 × Level 2 +            9–10 marks for well justified recommendation of which pricing method to choose and why it is more important than the other methods.             7–8 marks for limited recommendation of which pricing method to choose.         </td> </tr> <tr> <td data-bbox="316 1350 480 1487">Level 2</td> <td data-bbox="480 1350 1313 1487">           4–6 marks            Detailed discussion of the benefits and/or drawbacks of each role of packaging.         </td> </tr> <tr> <td data-bbox="316 1487 480 1621">Level 1</td> <td data-bbox="480 1487 1313 1621">           1–3 marks            Outline of the advantages and/or disadvantages of each method.         </td> </tr> </tbody> </table>	Penetration pricing	<ul style="list-style-type: none"> <li>• Helps a new service enter the market</li> <li>• Helps to ensure sales are made</li> <li>• Lower price may mean lower gross profit</li> </ul>	Price skimming	<ul style="list-style-type: none"> <li>• Help establish the business as a high quality service</li> <li>• May put off many customers as the price is too high</li> </ul>	Cost plus pricing	<ul style="list-style-type: none"> <li>• Easy to apply</li> <li>• Could lose sales if selling price higher than competitors</li> </ul>		Knowledge/Analysis/ Evaluation	Level 3	At least 2 × Level 2 + 9–10 marks for well justified recommendation of which pricing method to choose and why it is more important than the other methods.  7–8 marks for limited recommendation of which pricing method to choose.	Level 2	4–6 marks Detailed discussion of the benefits and/or drawbacks of each role of packaging.	Level 1	1–3 marks Outline of the advantages and/or disadvantages of each method.	12
Penetration pricing	<ul style="list-style-type: none"> <li>• Helps a new service enter the market</li> <li>• Helps to ensure sales are made</li> <li>• Lower price may mean lower gross profit</li> </ul>															
Price skimming	<ul style="list-style-type: none"> <li>• Help establish the business as a high quality service</li> <li>• May put off many customers as the price is too high</li> </ul>															
Cost plus pricing	<ul style="list-style-type: none"> <li>• Easy to apply</li> <li>• Could lose sales if selling price higher than competitors</li> </ul>															
	Knowledge/Analysis/ Evaluation															
Level 3	At least 2 × Level 2 + 9–10 marks for well justified recommendation of which pricing method to choose and why it is more important than the other methods.  7–8 marks for limited recommendation of which pricing method to choose.															
Level 2	4–6 marks Detailed discussion of the benefits and/or drawbacks of each role of packaging.															
Level 1	1–3 marks Outline of the advantages and/or disadvantages of each method.															

Question	Answer	Marks
1(b)	<p>Level 1 – 1 mark for each L1 statement (max of 3 marks) e.g. Penetration pricing means the service is sold for a low price to help it enter the market.</p> <p>Level 2 – 1 × L2 explanation can gain 4 marks and a further mark can be awarded for each additional L2 explanation (max 6 marks) e.g. Penetration pricing means the service is sold for a low price to help it enter the market and attract customers away from competitors. However, it will result in lower gross profit whilst the prices are kept low and customers may think the service is low quality if the price is too low. (L2)</p> <p>Level 3 – For L3 to be awarded there needs to be at least two L2 marks awarded and then a recommendation of which pricing method to choose.</p> <p><b>Award up to 2 additional marks for relevant application.</b></p> <p>Possible application marks: Motorhome; van conversion; changes vans and large cars; sole trader business; started 2 years ago; plans to expand by offering additional services; needs 3 new skilled and experienced workers; financial information from appendix 3.</p> <p>There may be other examples in context that have not been included here.</p>	

Question	Answer	Marks
2(a)	<p><b>Identify and explain <u>two</u> possible reasons for the failure of the business that Peter used to work for.</b></p> <p>Knowledge [2 × 1] Award one mark for each relevant reason            Analysis [2 × 1] Award one mark for an explanation of each reason            Application [2 × 2] Award two application marks for each reason</p> <p>Answers are likely to include:</p> <ul style="list-style-type: none"> <li>• Poor management – lack of experience leading to bad decisions</li> <li>• Failure to plan for change – not reacting to changes in technology, markets or economic changes</li> <li>• Poor financial management – leading to shortage of cash/cash flow problems</li> <li>• Over-expansion – problems with finance and management if grows too quickly</li> </ul> <p>Indicative response:            Poor management (k) as the owner had not been able to pay its suppliers of car parts (ap). The owner did not have the experience to deal with car repair businesses entering in the market (ap) and this may have resulted in cash flow problems as the owner ran out of cash (an).</p> <p>Possible application marks:            Motorhome; van conversion; changes vans and large cars; sole trader business; started 2 years ago; financial information from appendix 3; the previous employer lacked management experience; had been unable to pay its suppliers of car parts; car repair business.</p> <p>There may be other examples in context that have not been included here.</p>	8

Sample size	<ul style="list-style-type: none"> <li>Larger size will mean more accurate results but more expensive to carry out</li> <li>Smaller sample size will mean there is less likelihood of this being representative of the market</li> </ul>															
Location where questionnaire is carried out	<ul style="list-style-type: none"> <li>If carried out in the city then may not ask people who are interested in van conversions – so results will be less reliable</li> <li>If carefully selected area such as near campsites for camper vans or motorhomes then the results will be more accurate as people interested in these conversions will be sampled</li> </ul>															
Questions asked	<ul style="list-style-type: none"> <li>If badly phrased questions are asked then the results will be less likely to be truly what the respondents think</li> <li>Closed questions will not gain qualitative information</li> </ul>															
	Knowledge/Analysis/ Evaluation															
Level 3	At least 2 × Level 2 + 9–10 marks for well justified conclusion as to which is the most important factor in ensuring accurate results compared to other factors.  7–8 marks for some limited judgement shown in conclusion as to which is the most important factor in ensuring accurate results.															
Level 2	4–6 marks Detailed discussion of the benefits and/or drawbacks of each factor.															
Level 1	1–3 marks Outline of the benefits and/or drawbacks of each factor.															

Question	Answer	Marks
3(b)	<p>Level 1 – 1 mark for each L1 statement (max of 3 marks) e.g. A larger sample size will mean more possible customers will answer it.</p> <p>Level 2 – 1 × L2 explanation can gain 4 marks and a further mark can be awarded for each additional L2 explanation (max 6 marks) e.g. A larger sample size will mean more possible customers will answer the questionnaire giving more accurate results. However, to ask more people will take more time to gather the data and more time to analyse it. This will all cost Peter more money and so he may have to just ask a small number of people but try to ensure the sample is from the target market. (L2)</p> <p>Level 3 – For L3 to be awarded there needs to be at least two L2 marks awarded and then a recommendation as to which is the most important factor in ensuring accurate results.</p> <p><b>Award up to 2 additional marks for relevant application.</b></p> <p>Possible application marks: Motorhome; van conversion; changes vans and large cars; sole trader business; started 2 years ago; plans to expand by offering additional services; financial information from appendix 3.</p> <p>There may be other examples in context that have not been included here.</p>	

Question	Answer	Marks
4(a)	<p><b>Identify and explain <u>one</u> advantage and <u>one</u> disadvantage to VC of using job production.</b></p> <p>Knowledge [2 × 1] Award one mark for each relevant advantage/disadvantage            Analysis [2 × 1] Award one mark for an explanation of each advantage/disadvantage            Application [2 × 2] Award two application marks for each advantage/disadvantage</p> <p>Answers are likely to include:</p> <p>Advantages:</p> <ul style="list-style-type: none"> <li>• It is suitable for these one-off personalised van conversions – each one is different according to customer preferences – can charge higher prices</li> <li>• The service meets the exact requirements of the customer – increasing customer satisfaction</li> <li>• More interesting and varied work for employees – can be more motivating than flow or batch production</li> </ul> <p>Disadvantages:</p> <ul style="list-style-type: none"> <li>• Likely for higher wages to be paid to skilled workers – costs are higher</li> <li>• Labour-intensive production often takes longer – as each job is different – it may take more time to complete a customer order</li> <li>• Materials used may need to be ordered separately – take time to arrive as made especially to order and any mistakes will be expensive to replace</li> <li>• Cannot easily be sold to someone else – materials may have to be specially purchased – increasing costs</li> </ul> <p>Indicative response:            Service meets the exact requirements of the customer (k) so increases customer satisfaction leading to good image for the business and increase sales. (an) The vans will be converted in the exact way the customer wants (ap) and then when travelling round other people will see the van and if they like the inside, such as a cooker included, then they may be more likely to ask VC to undertake a conversion for them. (ap)</p> <p>Possible application marks:            Motorhome; van conversion; changes vans and large cars; sole trader business; started 2 years ago; plans to expand by offering additional services; needs 3 new skilled and experienced workers; financial information from appendix 3; ordering car parts.</p> <p>There may be other examples in context that have not been included here.</p>	8

Question	Answer	Marks												
4(b)	<p data-bbox="316 248 1286 349"><b>Using Appendix 3 and other information, consider whether Peter should be worried about VC's profitability. Justify your answer using profitability ratios.</b></p> <p data-bbox="316 383 746 416"><b>Relevant points might include:</b></p> <table border="1" data-bbox="316 450 1313 1249"> <tbody> <tr> <td data-bbox="323 461 619 748">Profitability ratios L2</td> <td data-bbox="619 461 1305 748"> <p data-bbox="635 472 855 595"><b>2017:</b> GPM = 20% NPM = 5% ROCE = 16.66%</p> <p data-bbox="635 607 815 730"><b>2018:</b> GPM = 14% NPM = 4% ROCE = 15%</p> </td> </tr> <tr> <td data-bbox="323 748 619 1238">Basic statements L1</td> <td data-bbox="619 748 1305 1238"> <p data-bbox="635 770 1002 898"><b>2017:</b> Gross profit =\$ 20 000 (Net) Profit = \$5000 Capital employed = \$30 000</p> <p data-bbox="635 909 1002 1037"><b>2018:</b> Gross profit = \$21 000 (Net) profit = \$6000 Capital employed = \$40 000</p> <p data-bbox="635 1070 1042 1104">Revenue increased by \$50 000</p> <p data-bbox="635 1137 1094 1171">Cost of sales increased by \$49 000</p> <p data-bbox="635 1205 1169 1238">Expenses remained the same at \$15 000</p> </td> </tr> </tbody> </table> <p data-bbox="316 1290 1193 1323">Award up to ten marks using the levels-based mark scheme below.</p> <table border="1" data-bbox="316 1357 1313 1951"> <tbody> <tr> <td data-bbox="323 1368 456 1424"></td> <td data-bbox="456 1368 1305 1424">Knowledge/Analysis/ Evaluation</td> </tr> <tr> <td data-bbox="323 1424 456 1653">Level 3</td> <td data-bbox="456 1424 1305 1653"> <p data-bbox="472 1435 1249 1536">At least 2 × Level 2 profitability ratios 9–10 marks for well justified conclusion as to whether Peter should be worried about VC's profitability.</p> <p data-bbox="472 1570 1281 1637">7–8 marks for some limited judgement shown in conclusion as to whether Peter should be worried about VC's profitability</p> </td> </tr> <tr> <td data-bbox="323 1653 456 1787">Level 2</td> <td data-bbox="456 1653 1305 1787"> <p data-bbox="472 1675 1137 1776">4–6 marks Profitability ratios correctly calculated and analysed Analysis of financial information in Appendix 3</p> </td> </tr> <tr> <td data-bbox="323 1787 456 1944">Level 1</td> <td data-bbox="456 1787 1305 1944"> <p data-bbox="472 1809 1225 1933">1–3 marks Outline of changes in financial position without profitability ratios calculated. Question	Answer	Marks
4(b)	<p>Level 1 – 1 mark for each L1 statement (max of 3 marks) e.g. The gross profit in 2018 was \$1,000 more than in 2017.</p> <p>Level 2 – 1 × L2 explanation can gain 4 marks and a further mark can be awarded for each additional L2 explanation (max 6 marks) e.g. The gross profit margin for the motorhome business in 2017 was 20%. (L2 plus application for referring to the products being motorhomes).</p> <p>Level 3 – For L3 to be awarded there needs to be at least two correct L2 profitability calculations and then a conclusion of whether or not Peter should be pleased with the figures.</p> <p><b>Award up to 2 additional marks for relevant application.</b></p> <p>Possible application marks: Motorhome; van conversion; changes vans and large cars; sole trader business; started 2 years ago; plans to expand by offering additional services; needs 3 new skilled and experienced workers; figures from Appendix 3 used to support L1/L2/L3 answers.</p> <p>There may be other examples in context that have not been included here.</p>
