Assessment Unit C2

assessing

Module C2:

AS Core Mathematics 2

MV18

[AMC21]

FRIDAY 19 MAY, MORNING

Time

1 hour 30 minutes, plus your additional time allowance.

Instructions to Candidates

Write your Centre Number and Candidate Number in the spaces provided at the top of this page.

You must answer **all eight** questions in the spaces provided.

Complete in black ink only.

Questions which require drawing or sketching should be completed using an H.B. pencil.

All working should be clearly shown in the spaces provided.

Marks may be awarded for partially correct solutions. **Answers without working may not gain full credit.**

Answers should be given to three significant figures unless otherwise stated.

You are permitted to use a graphic or scientific calculator in this paper.

Information for Candidates

The total mark for this paper is 75

Figures in brackets printed at the end of each question indicate the marks awarded to each question or part question.

A copy of the **Mathematical Formulae and Tables booklet** is provided.

Throughout the paper the logarithmic notation used is $\ln z$ where it is noted that $\ln z \equiv \log_e z$

BLANK PAGE
(Questions start overleaf)

$$\int 6t^2 + t^{\frac{1}{2}} + 9 - 3t^{-3} \, dt \quad [5 \text{ marks}]$$

[illegible]

$$\int_0^{0.6} 10^x \, dx \quad [5 \text{ marks}]$$

[illegible]

(ii) Briefly explain why in this case the trapezium rule gives a value greater than the exact value. [1 mark]

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

BLANK PAGE

(Questions continue overleaf)

- 4 (a) A girl invests £1 000 at 8% per annum compound interest added annually.
- (i) Find the value of the investment at the end of n years. [1 mark]

- (ii) Hence find how many years it will be until the value of the investment exceeds £2000 [3 marks]

$$S_n = \frac{n(n+1)}{2} \quad [4 \text{ marks}]$$

[illegible]

[illegible]

$$\frac{2}{\tan^2 \theta} + 8 = \frac{7}{\sin \theta}$$

where $0^\circ \leq \theta \leq 180^\circ$ [9 marks]

[illegible]

as far as the term in x^3 [6 marks]

[illegible]

$$\log_a x^n = n \log_a x \quad [6 \text{ marks}]$$

[illegible]

- 8 **Fig. 1** below shows a framework for part of a stained glass window.
 AB, BC and CA are tangents to the circle, centre O and radius r .

Fig. 1

$AB = 20 \text{ cm}$
 $AC = 16 \text{ cm}$
 $\angle BAC = 90^\circ$

- (i) Find the exact length of BC. [1 mark]

10386.03 MV18

(iii) Find, in radians, the angle ABC. [1 mark]

The framework is to be filled with glass of four different colours as shown in **Fig. 2** below.

Fig. 2

(iv) Find the area of the red glass. [7 marks]

THIS IS THE END OF THE QUESTION PAPER
