SOURCE A: Conflict In Society

As a result of a diverse society, one negative consequence may be conflict. Causes of conflict include inequalities between different groups; differences in religious beliefs and cultural and political differences. There are many ways in which conflict may be resolved through mediation, sanctions and the use of the legal system.

The United Nations is one organisation which works towards conflict resolution. It is committed to maintaining international peace and security, developing friendly relations among nations and promoting better living standards and human rights.

The work of the United Nations reaches every corner of the globe. Although best known for peacekeeping, peacebuilding, conflict prevention and humanitarian assistance, there are many other ways the United Nations works to make the world a safer place for this and future generations.
