## Mathematics

Unit T4

(With calculator)

Higher Tier

**MV18**

[GMT41]

**MONDAY 8 JANUARY, 9.15am–11.15am**

---

### Time

2 hours, plus your additional time allowance.

### Instructions to Candidates

Write your Centre Number and Candidate Number in the spaces provided at the top of this page.

**You must answer the questions in the spaces provided.**

**Do not write on blank pages.**

Complete in black ink only.

Answer **all twenty** questions.

All working should be clearly shown in the spaces provided.

Marks may be awarded for partially correct solutions.

You **may** use a calculator for this paper.

## Information for Candidates

The total mark for this paper is 100.

Figures in brackets printed at the end of each question indicate the marks awarded to each question or part question.

Functional Elements will be assessed in this paper.

Quality of written communication will be assessed in

Questions **5**, **6** and **17**.

You should have a calculator, ruler, compasses and a protractor.

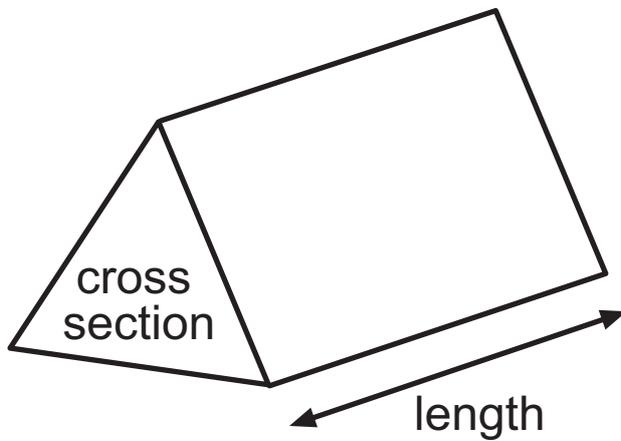

The Formula Sheet is on pages 4 and 5.

**BLANK PAGE**

**(Questions start on page 6)**

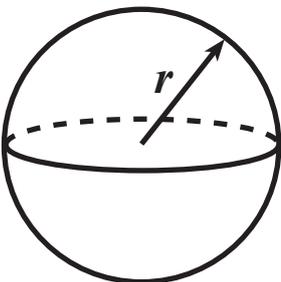

# Formula Sheet

**Volume of prism = area of cross section  $\times$  length**

**Volume of sphere =  $\frac{4}{3} \pi r^3$**

**Surface area of sphere =  $4 \pi r^2$**

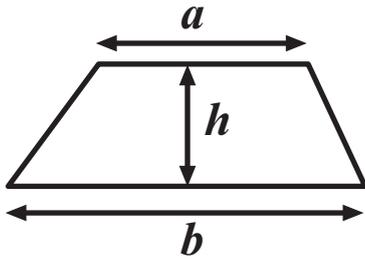

## Quadratic Equation

The solutions of  $ax^2 + bx + c = 0$

where  $a \neq 0$ , are given by

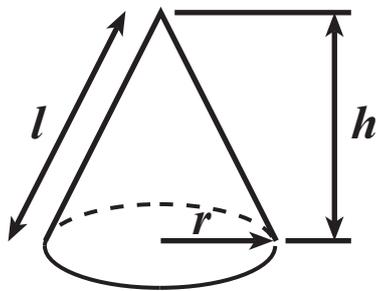

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

$$\text{Area of trapezium} = \frac{1}{2} (a + b)h$$

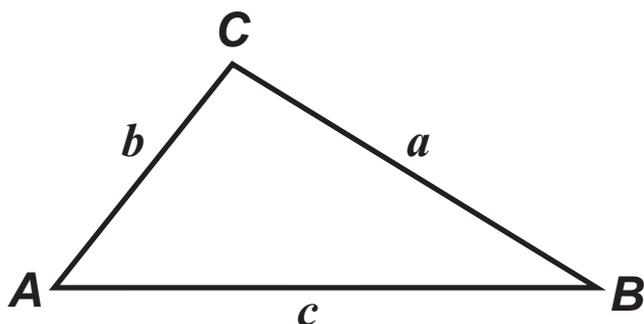

$$\text{Volume of cone} = \frac{1}{3} \pi r^2 h$$

$$\text{Curved surface area of cone} = \pi r l$$

In any triangle **ABC**

$$\text{Sine Rule: } \frac{a}{\sin A} = \frac{b}{\sin B} = \frac{c}{\sin C}$$

$$\text{Cosine Rule: } a^2 = b^2 + c^2 - 2bc \cos A$$

$$\text{Area of triangle} = \frac{1}{2} ab \sin C$$

1 (a) Factorise

(i)  $8rt + 12t^2$  [2 marks]

Answer \_\_\_\_\_

(ii)  $k^2 - 16$  [1 mark]

Answer \_\_\_\_\_

- (b) Solve the simultaneous equations  $4x - y = 3$   
[3 marks]  $6x + 2y = 1$

**Show all your working.**

**A solution by trial and improvement will not be accepted.**

Answer  $x =$  \_\_\_\_\_

$y =$  \_\_\_\_\_

**BLANK PAGE**

- 2 Bob was given a 3.5% pay rise.  
His salary is now £25 378.20  
What was his salary before the rise? [3 marks]

Answer £ \_\_\_\_\_

- 3 A square of side  $x$  cm is lengthened by 2 cm on one side and 4 cm on the other side to create a rectangle.

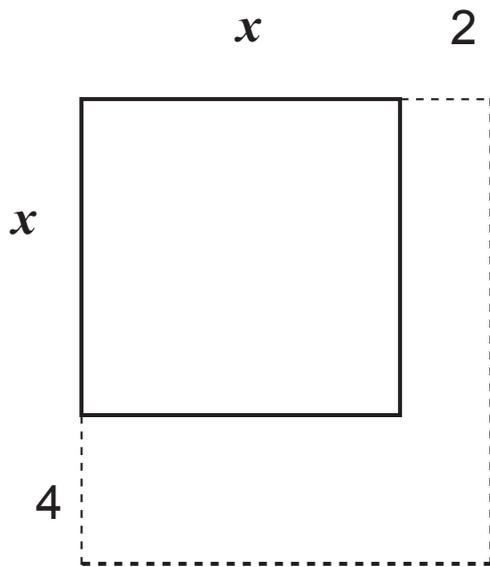

diagram not  
drawn accurately

- (a) Write an expression for the area of the rectangle.  
[2 marks]

Answer \_\_\_\_\_

- (b) The area of the rectangle is  $48 \text{ cm}^2$

Show that  $x^2 + 6x - 40 = 0$  [2 marks]

(c) Hence solve the equation to find the value of  $x$ .  
[3 marks]

Answer  $x =$  \_\_\_\_\_

4 Calculate the size of angle  $x$  below. [4 marks]

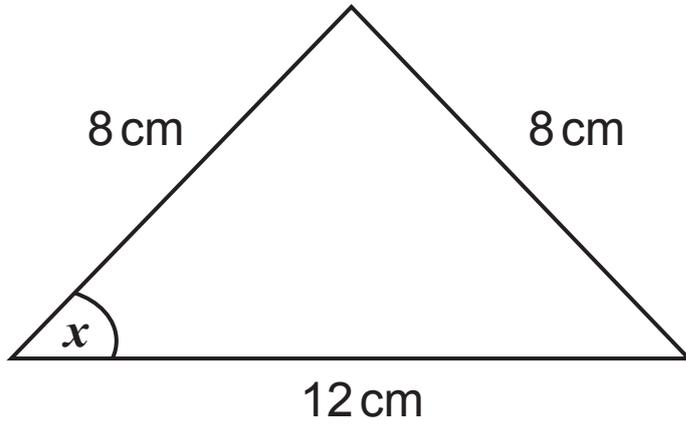

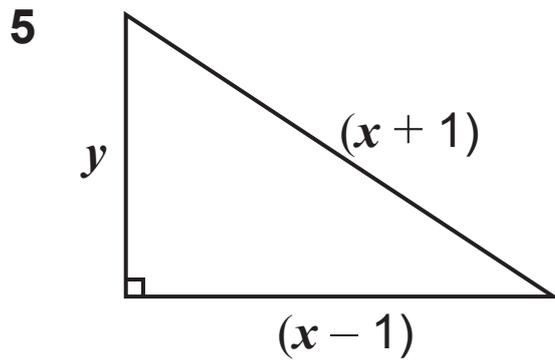

diagram not  
drawn accurately

Answer \_\_\_\_\_°

Quality of written communication will be assessed in this question.

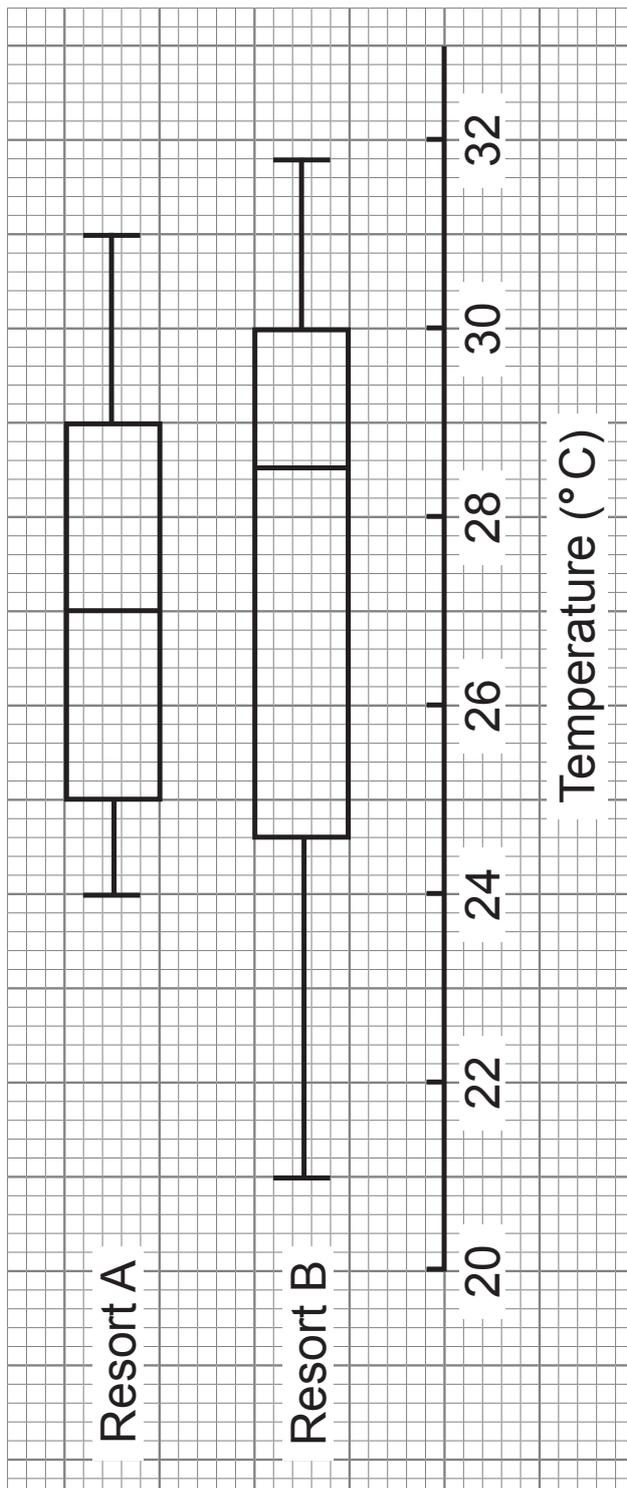

$x$  is a square number.

Prove that  $y$  is an even number. [5 marks]

Quality of written communication will be assessed in this question.

- 6 The average daily temperature during the month of July was recorded each day in two holiday resorts. The data is represented in the box plots below.

Jill likes to holiday where it is warm.

Using appropriate statistical vocabulary, explain why Jill may choose to go to

**(a)** Resort A, [1 mark]

---

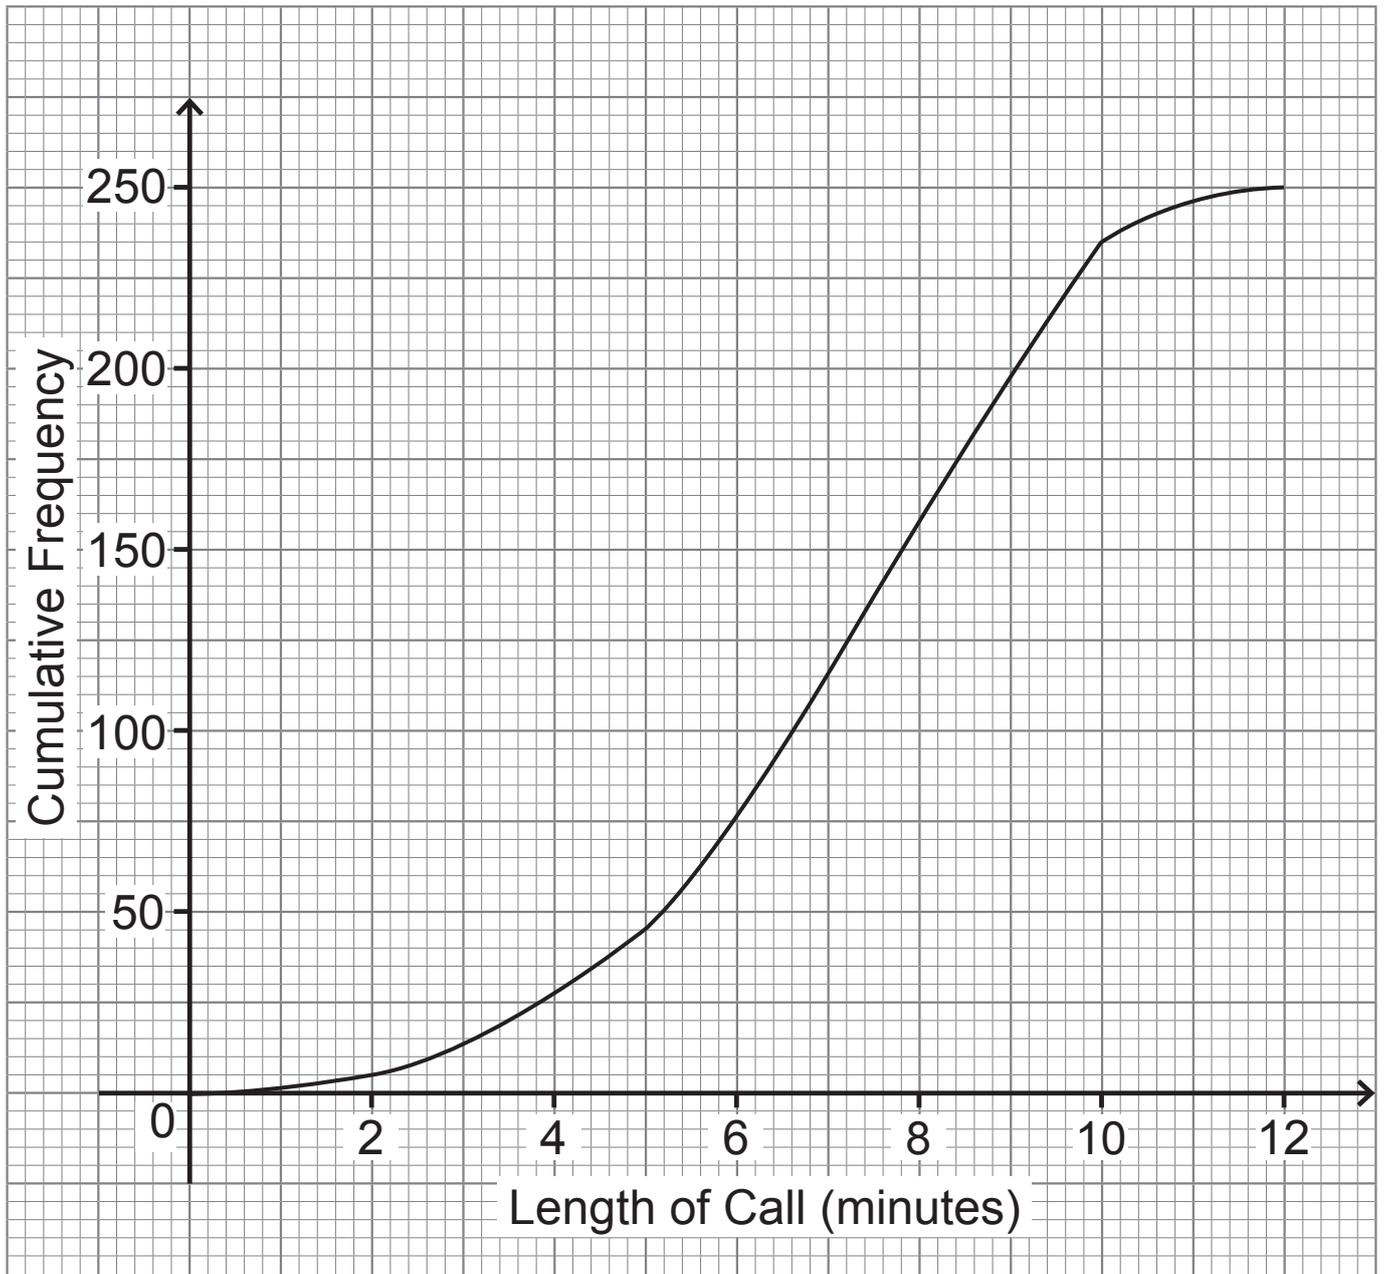

---

**(b)** Resort B. [1 mark]

---

---

- 7 The lengths of calls received by a call centre one day are recorded and shown on the cumulative frequency graph.

Use the graph to estimate

**(a)** the median, [1 mark]

Answer \_\_\_\_\_ minutes

**(b)** the interquartile range, [2 marks]

Answer \_\_\_\_\_ minutes

**(c)** the percentage of calls which lasted between 5 and 10 minutes. [3 marks]

Answer \_\_\_\_\_ %

8 (a) Expand and simplify [2 marks]

$$(7x - 3)(8x - 9)$$

Answer \_\_\_\_\_

(b) Simplify [2 marks]

$$\frac{8a^2b^3}{6a^3b}$$

Answer \_\_\_\_\_

(c) Simplify [1 mark]

$$\frac{3(x - 2)^2}{(x - 2)}$$

Answer \_\_\_\_\_

- 9 (a) Find the equation of the line **L**, which passes through the points  $A(4, 0)$  and  $B(-2, 3)$ . [3 marks]

Answer \_\_\_\_\_

- (b) Find the equation of the line which is perpendicular to **L** and passes through the origin. [1 mark]

Answer \_\_\_\_\_

**10** A and T are variables.

The variable  $(48 - A)$  is directly proportional to the square of the variable T.

A is 28 when  $T = 2$

**(a)** Find the formula for  $(48 - A)$  in terms of T. [2 marks]

Answer  $(48 - A) =$  \_\_\_\_\_

**(b)** Set up an equation and solve it to find the values of T for which A has the same value as T. [4 marks]

**A method using trial and improvement will not be accepted.**

Answer \_\_\_\_\_

**11** A zoologist is trying to count the number of geese at a local nature reserve. She catches 64 geese and attaches tags to their legs. The next week she catches 80 geese and finds that 7 of them are tagged.

**(a)** Calculate her estimate of the number of geese on the reserve. [2 marks]

Answer \_\_\_\_\_

**(b)** Give two improvements to her method which would make her estimate more accurate. [1 mark for each]

1. \_\_\_\_\_

2. \_\_\_\_\_

**(c)** Name one factor which would affect her estimate and which she cannot control. [1 mark]

\_\_\_\_\_

12 Solve the equation [6 marks]

$$\frac{2}{x-3} - \frac{7}{x} = 2$$

**A method using trial and improvement will not be accepted.**

Answer \_\_\_\_\_

13

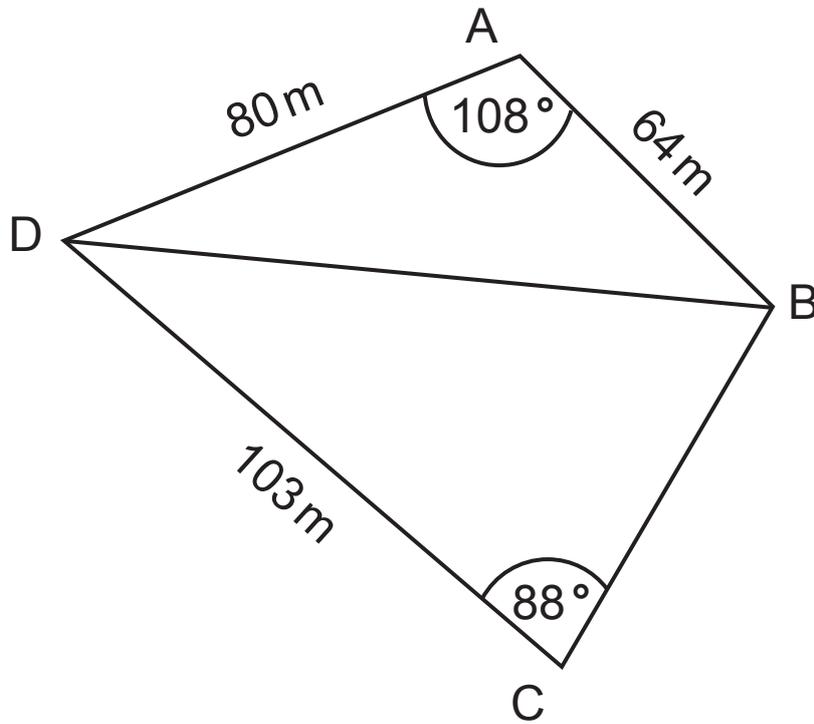

diagram not  
drawn accurately

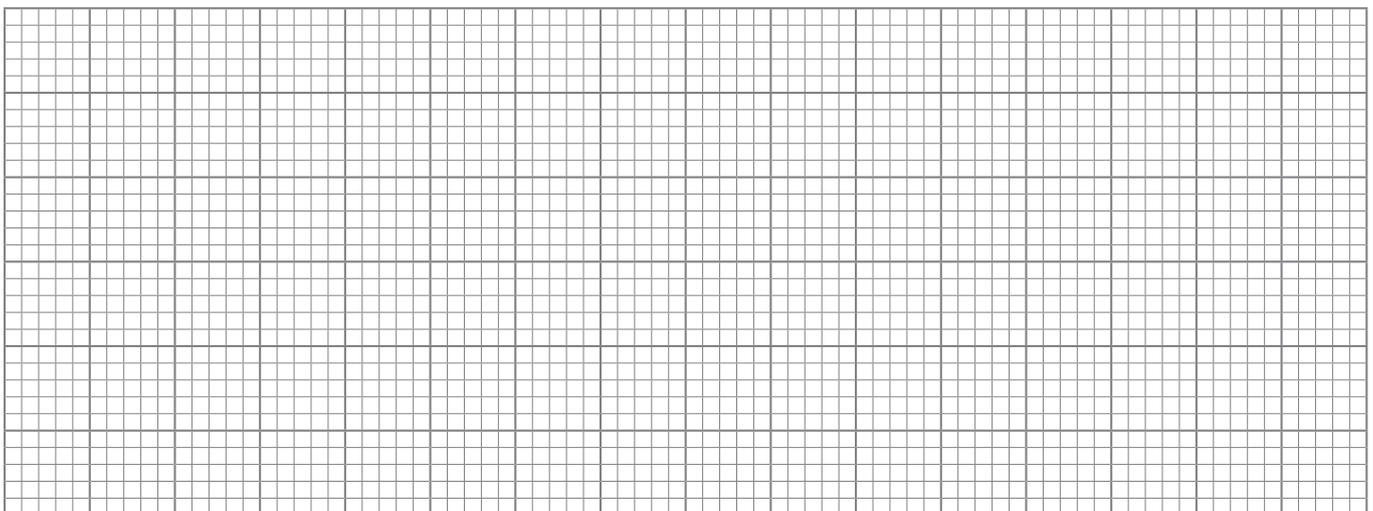

Calculate the area of ABCD. [7 marks]

Answer \_\_\_\_\_ m<sup>2</sup>

- 14** A group of children recorded the time they spent doing homework on a particular night. The results are shown below.

Time (T minutes)	Number of children
$0 < T \leq 20$	12
$20 < T \leq 30$	18
$30 < T \leq 45$	33
$45 < T \leq 50$	14
$50 < T \leq 65$	36
$65 < T \leq 80$	15

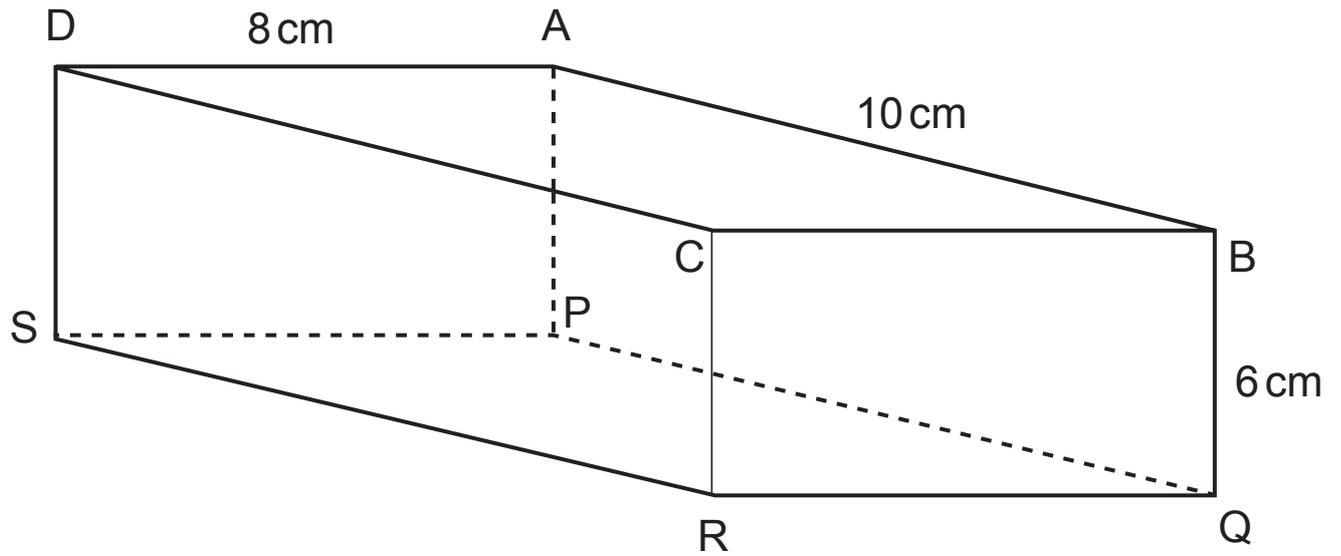

- (a) Illustrate this data by drawing a histogram on the axes below. [3 marks]

(b) A sample of 40 is to be taken from the children who spent between 32 and 65 minutes. Estimate how many of the sample spent between 40 and 50 minutes.  
[3 marks]

Answer \_\_\_\_\_

15 A cuboid is shown.

Calculate the angle between AR and the face ABQP.  
[4 marks]

Answer \_\_\_\_\_°

**16** Solve the simultaneous equations [8 marks]

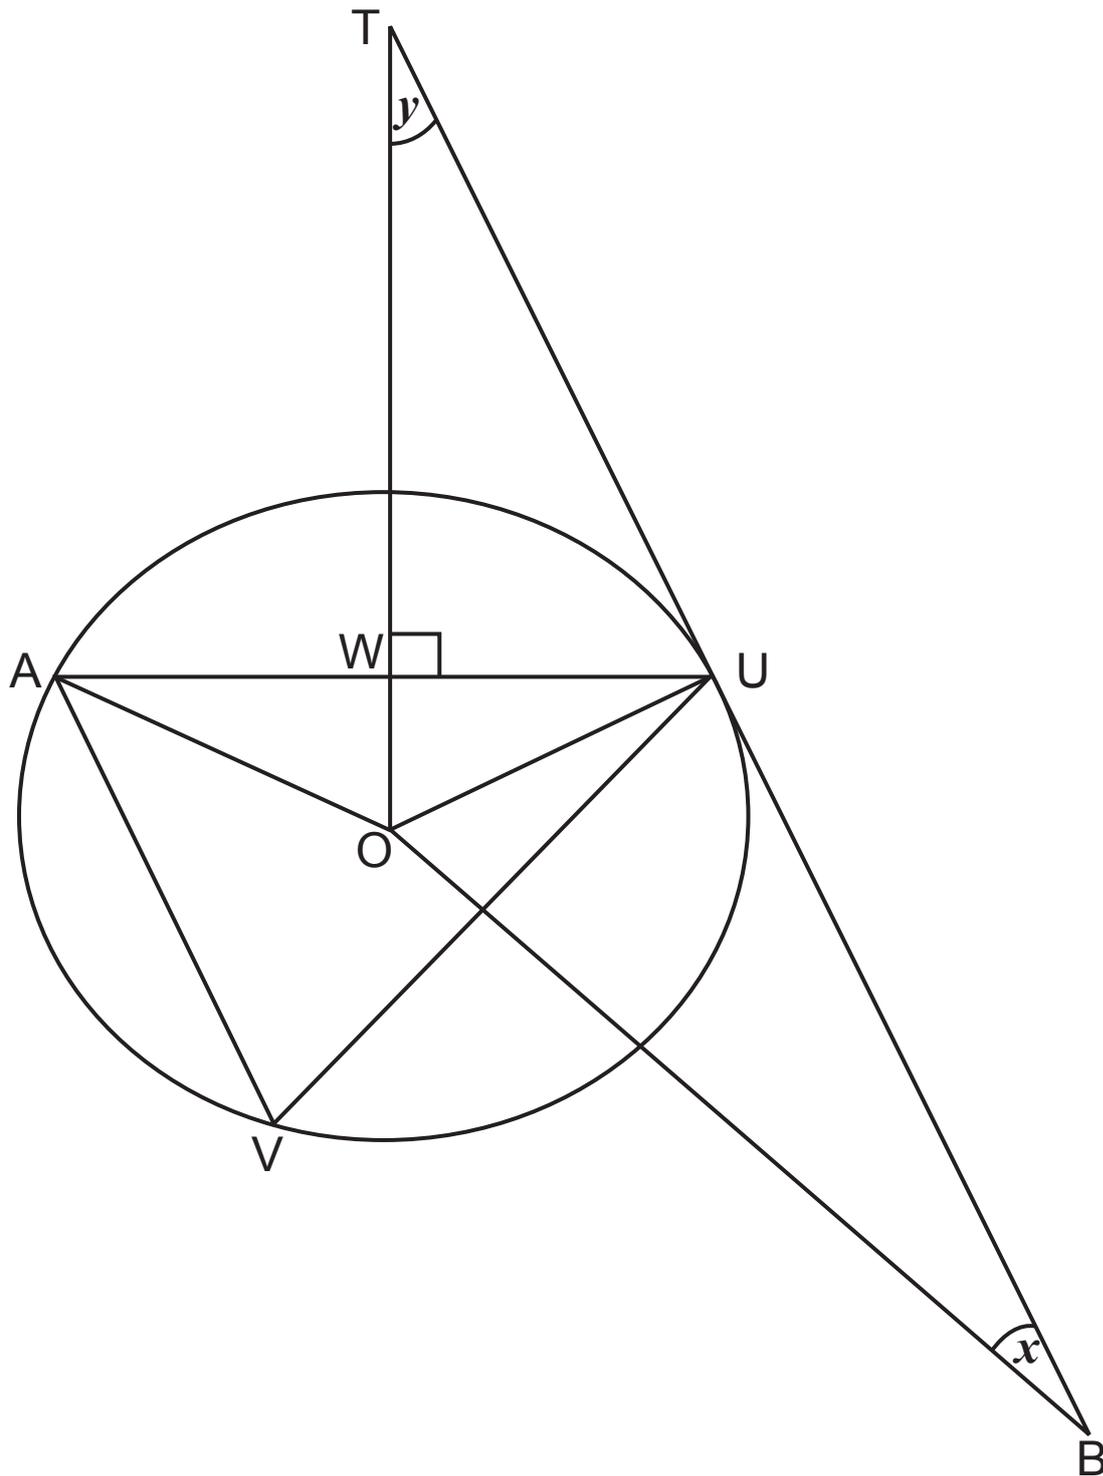

$$5x - 3y = 1 \quad \text{and} \quad x^2 - y^2 = -5$$

**A method using trial and improvement will not be accepted.**

Answer \_\_\_\_\_

Quality of written communication will be assessed in this question.

17

TUB is a tangent to the circle centre O.

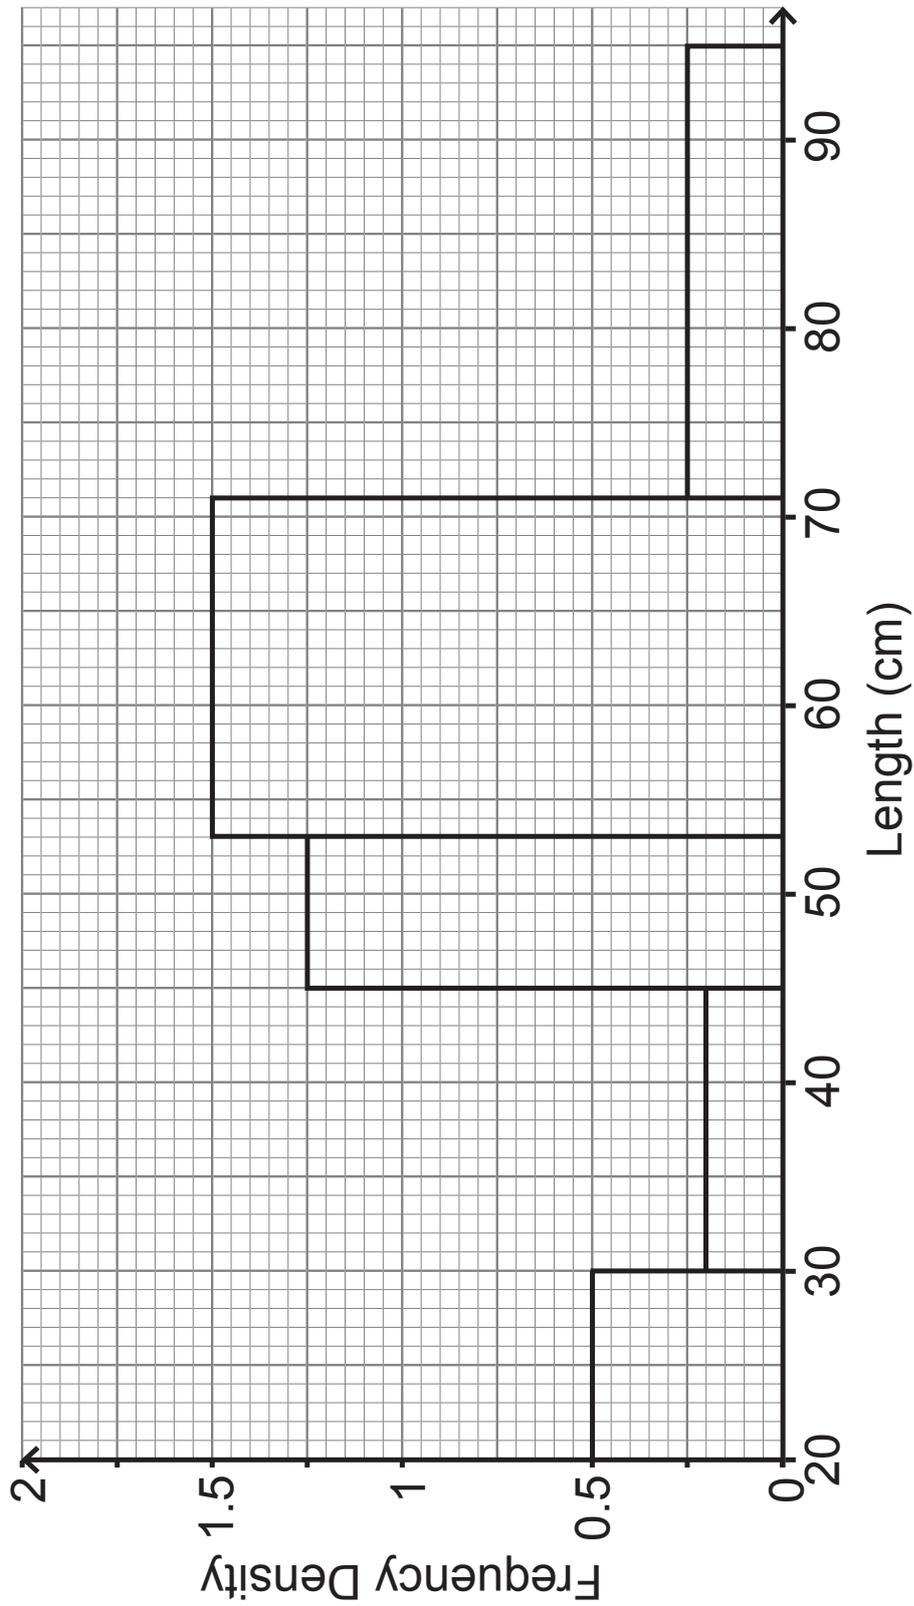

Angle TWU =  $90^\circ$

Find the size of the obtuse angle AOB in terms of  $x$  and  $y$ .  
[4 marks]

**You must give a reason for *each* line of your working.**

Answer \_\_\_\_\_ $^\circ$

18 The histogram illustrates the lengths of a collection of twigs.

Calculate an estimate for the mean length of the twigs.  
[4 marks]

Answer \_\_\_\_\_ cm

**19** Factorise fully [4 marks]

$$21x^4y - 3x^3y^2 - 18x^2y^3$$

Answer \_\_\_\_\_

**20**  $(24)^{2p} \times (36)^{3q} = 48$

Using prime factors, or otherwise, find the values of  $p$  and  $q$ . [4 marks]

**A method involving trial and improvement will not be accepted.**

Answer  $p =$  \_\_\_\_\_ ,  $q =$  \_\_\_\_\_
