Core theme – patterns and change

Section A

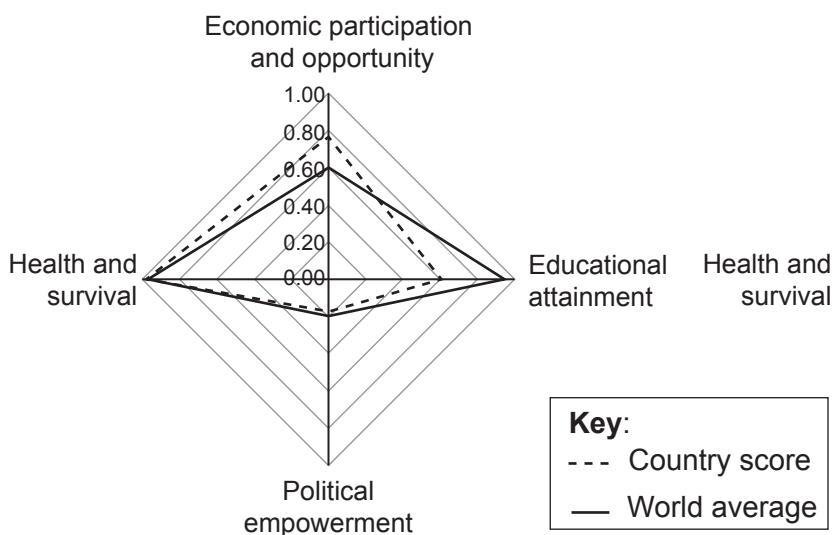

Answer **all** questions. Write your answers on the lines in the boxes provided. If you need to continue your answer, use the blank space immediately below the lines provided in the box.

1. Populations in transition

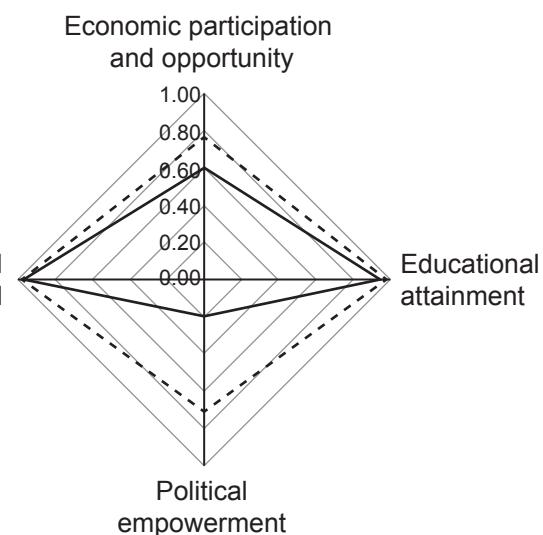

The graphs show how two countries score in the World Economic Forum's Gender Gap Index 2012, and how each compares to the world average.

The index looks at four aspects of inequality and each ranges from 0.00 (extreme inequality) to 1.00 (total equality).

Country A

Country B

Key:
--- Country score
— World average

[Source: adapted from World Economic Forum, *Gender Gap Report 2012*]

- (a) (i) Identify which country has greater gender equality.

[1]

.....
.....

(This question continues on the following page)

16EP02

(Question 1 continued)

- (ii) Using data from the graph, describe how gender equality in country A differs from the world average. [3]

.....

.....

.....

.....

.....

.....

.....

.....

- (b) Suggest **two** possible reasons why women in countries like country B have a high level of political empowerment. [2+2]

1.
2.

(This question continues on the following page)

(Question 1 continued)

- (c) Explain **two** reasons why the life expectancy in many low-income and middle-income countries is increasing.

[2+2]

2. Disparities in wealth and development

The graph shows the percentage of total financial aid going to particular geographical regions and the actual amount in US dollars this equates to for a poor person (a person living on less than US\$1.25 a day) in 2010.

[Source: From *Millennium Development Goal 8 The Global Partnership for Development: The Challenge We Face*, by MDG Gap Task Force, © 2013 United Nations. Reprinted with the permission of the United Nations.]

- (a) Describe how the **percentage of total financial aid** varies between the regions on the graph.

[3]

(This question continues on the following page)

(Question 2 continued)

- (b) Suggest **two** reasons why poor people in Sub-Saharan Africa do not receive very much financial aid per person.

[2+2]

1.

.....

.....

2.

.....

.....

- (c) Explain how remittances can improve the quality of life of recipients.

3. Patterns in environmental quality and sustainability

The table shows deforestation rates for six countries that share the Congo rainforest.

Country	Area of rainforest / thousands of hectares in 2010	Percentage of rainforest lost in the 1990s	Percentage of rainforest lost in the 2000s
Cameroon	20037	1.01	1.71
Congo	20932	0.80	1.61
Central African Republic	5833	0.90	1.01
Democratic Republic of the Congo	107181	1.51	3.25
Equatorial Guinea	2163	1.31	0.00
Gabon	22416	0.80	0.70

[Source: © International Baccalaureate Organization 2016]

- (a) Rank the **three** countries with the largest areas of rainforest from highest to lowest. [2]

.....

(This question continues on the following page)

(Question 3 continued)

- (b) Referring to the data in the table, describe the trend in rainforest loss between the 1990s and 2000s.

[3]

.....
.....
.....
.....
.....
.....

- (c) Explain **three** reasons why it is important to maintain the biodiversity of tropical rainforests.
