- The maximum mark for this examination paper is **[50 marks]**.

Section A

Answer **one** question from this section.

Microeconomics

1. (a) Explain why governments impose price floors (minimum prices). [10]
- (b) Discuss the consequences for producers, consumers and the government of imposing a price floor (minimum price) on a good. [15]

2. (a) Explain the view that an increase in price will lead to a decrease in the quantity demanded whilst an increase in demand will lead to an increase in price. [10]
- (b) Discuss the significance of price elasticity of demand for government intervention in markets. [15]

Section B

Answer **one** question from this section.

Macroeconomics

3. (a) Explain the effect of a rise in taxation and a fall in government expenditure on the circular flow of income of an economy. [10]
- (b) Evaluate the effectiveness of fiscal policy to reduce the rate of inflation. [15]
4. (a) Explain how business spending on research and development and government expenditure on infrastructure might shift the long-run aggregate supply curve. [10]
- (b) Evaluate the effectiveness of interventionist supply-side policies to achieve economic growth. [15]
-
