**Mark Scheme for Autumn 2021**

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

**Subject specific guidance**

The Assessment Objectives targeted by each question and the maximum marks available for each Assessment Objective are given at the top of each levels mark scheme for each question.

The weightings of the assessment objectives remain consistent throughout the levels. For example, if the maximum marks are 5 AO1, 10 AO2 and 15 AO3, then the AO1/AO2/AO3 ratio will be 1/2/3 throughout the levels.

When marking, you must therefore give greater priority to the more heavily weighted Assessment Objective when determining in which level and where within a level to place an answer.

### Section A: Relations between Greek states and between Greek and non-Greek states, 492-404 BC

<b>Question 1*</b>		<b>To what extent do you agree that the Athenian victory in the Battle of Marathon (490 BC) changed the relationships between the Greek city-states and Persia?</b> <b>[30 marks]</b>
