Mark Scheme for January 2013

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

OCR will not enter into any discussion or correspondence in connection with this mark scheme.

Subject-specific Marking Instructions

When marking, examiners must use both this mark scheme, the table showing the breakdown of marks by levels and assessment objectives (see below), and the Assessment Matrix (see Appendix 1).

Table of Marks by Levels and Assessment Objectives

Level	AO1	AO2	AO3
4	16–20	19–24	6
3	11–15	13–18	4–5
2	6–10	7–12	2–3
1	0–5	0–6	0–1

The Assessment Matrix

Broadly speaking and depending on the question, examiners should look for:

- a balanced and well-focused answer;
- which correctly identifies a number and range of relevant and important factors;
- in detail;
- and communicates these clearly and in a logical, fluent and coherent style;
- containing few, if any, errors of grammar, punctuation and spelling.

And credit answers which display knowledge and understanding of:

- current examples;
- political concepts, theories and language;
- other political systems including the EU;
- parallels, connections, similarities and difference.

The Mark Scheme

The mark scheme is indicative of the kinds of points likely to be raised by candidates in answering the questions. However, because of the nature of the subject, it cannot be regarded as definitive and the professional judgement and training of individual examiners will apply.

All substantive issues surrounding the paper will be settled at the standardisation meeting and through the arrangements made by OCR to ensure a consistent approach by all examiners. Examiners should contact the Principal Examiner if they have any concerns about the way an individual script should be marked.

APPENDIX 1

Advanced GCE Assessment Matrix

There are **four** levels of assessment of all three AOs in the A2 units. Level 4 is the highest level that can reasonably be expected from a candidate at the end an Advanced GCE course.

Level	Assessment Objective 1	Assessment Objective 2	Assessment Objective 3
4	Thorough and accurate knowledge and clear and detailed understanding of relevant concepts, ideas and political systems. Ability to make valid comparisons between them.	High level of skill in the interpretation, analysis and evaluation of relevant political information (including, the identification of parallels, connections, similarities and differences between aspects of the political systems studied). Ability to recognise bias and faulty argument and to reason effectively towards an individual and informed conclusion.	Ability to distinguish relevant and important factors correctly and integrate these into a balanced, well-focused argument. Ability to communicate this clearly and present it legibly and logically in fluent coherent style containing few, if any, errors of grammar, punctuation and spelling.
3	Good knowledge and understanding of relevant concepts, ideas and political systems. Ability to make some valid comparisons between them.	Good level of skill in the interpretation, analysis and evaluation of the relevant political issues (including, the identification of parallels, connections, similarities and differences between aspects of the political systems studied). Some attempt to recognise bias and faulty argument and to reason sensibly towards a sound conclusion.	Ability to identify the most important factors and present a relevant argument legibly and clearly if, at times, lacking incisiveness. There may be occasional errors of grammar, punctuation and spelling.
2	Limited knowledge and understanding of relevant concepts, ideas and political systems. Limited awareness of standard points of comparison.	Limited level of skill in the interpretation, analysis and evaluation of the relevant political issues (including, the identification of parallels, connections, similarities and differences between aspects of the political systems studied). Limited attempt to explain a few of the more obvious points central to the question and to recognise and describe some differing viewpoints. Reasoning may be incomplete and, while opinions may be offered, they are unlikely to be supported by argument.	Limited attempt to distinguish relevant material, which is assembled into a limited argument with some sense of order and legibility. There may be some errors of grammar, punctuation and spelling.
1	Basic and generalised knowledge and understanding of relevant concepts, ideas and political systems. Such knowledge and understanding will be incomplete and/or of tenuous relevance and may contain significant errors. Basic awareness of standard points of comparison.	Basic skill in the interpretation, analysis and evaluation of some of the relevant political issues (including, the identification of parallels, connections, similarities and differences between aspects of the political systems studied). Basic attempt to explain the simpler points central to the question and it is likely that only one viewpoint will be recognised. There will be little evidence of reasoning.	An attempt is made to shape an argument at a basic level, which lacks coherence, legibility and direction, and is unselective. Contains intrusive errors of grammar, punctuation and spelling.
