Source A

Digital technologies have created many new products which have been adopted widely. A recent study has suggested that digital social communication is having a significant impact on our lives. Our social networks are being extended and we are reaching a much wider range of people. This seems to be giving more power to ordinary people to both create and receive different types of communication, from sharing events to distributing music. In addition we are building new digital communities that bring people together from many different social backgrounds and cultures. This may be reducing social inequality by breaking down the barriers between people.

Source B

Who needs social media and mobile phones?

I just don't agree with those people who say that digital technology and social media create better relationships, keep us in touch with family and friends, and help us to be safer.

If they do promote better relationships, why do young people's conversations rarely go beyond a few sentences? What is the impact on relationships when talking to someone else is interrupted by a call that 'cannot be missed'? Where is the real social interaction between people face-to-face? And what about cyber bullying and stalking? We are losing the ability to relate to one another properly.

1   With reference to the Sources, explain how social media might extend social networks.   **[9]***

2   With reference to the Sources, to what extent has digital social communication weakened social relationships?   **[10]**

3   'Digital social communication has reduced social inequality.' Evaluate this point of view.

SAMPLE MARK SCHEME

Duration: 2 hours 15 minutes

MAXIMUM MARK   105

MARKING INSTRUCTIONS

PREPARATION FOR MARKING

SCORIS

1. Make sure that you have accessed and completed the relevant training packages for on-screen marking: *scoris assessor Online Training*; *OCR Essential Guide to Marking*.

2. Make sure that you have read and understood the mark scheme and the question paper for this unit. These are posted on the RM Cambridge Assessment Support Portal http://www.rm.com/support/ca

3. Log-in to scoris and mark the **required number** of practice responses ("scripts") and the **required number** of standardisation responses.

   YOU MUST MARK 10 PRACTICE AND 10 STANDARDISATION RESPONSES BEFORE YOU CAN BE APPROVED TO MARK LIVE SCRIPTS.

TRADITIONAL

Before the Standardisation meeting you must mark at least 10 scripts from several centres. For this preliminary marking you should use **pencil** and follow the **mark scheme**. Bring these **marked scripts** to the meeting.

MARKING

1. Mark strictly to the mark scheme.

2. Marks awarded must relate directly to the marking criteria.

3. The schedule of dates is very important. It is essential that you meet the scoris 50% and 100% (traditional 50% Batch 1 and 100% Batch 2) deadlines. If you experience problems, you must contact your Team Leader (Supervisor) without delay.

4. If you are in any doubt about applying the mark scheme, consult your Team Leader by telephone, email or via the scoris messaging system.

5.   Work crossed out:

   a.   where a candidate crosses out an answer and provides an alternative response, the crossed out response is not marked and gains no marks

   b.   if a candidate crosses out an answer to a whole question and makes no second attempt, and if the inclusion of the answer does not cause a rubric infringement, the assessor should attempt to mark the crossed out answer and award marks appropriately.

6.   Always check the pages (and additional objects if present) at the end of the response in case any answers have been continued there. If the candidate has continued an answer there then add a tick to confirm that the work has been seen.

7.   There is a NR (No Response) option. Award NR (No Response)

   -   if there is nothing written at all in the answer space

   -   OR if there is a comment which does not in any way relate to the question (e.g. 'can't do', 'don't know')

   -   OR if there is a mark (e.g. a dash, a question mark) which isn't an attempt at the question.

   Note: Award 0 marks – for an attempt that earns no credit (including copying out the question).

8.   The scoris **comments box** is used by your Team Leader to explain the marking of the practice responses. Please refer to these comments when checking your practice responses. **Do not use the comments box for any other reason.**

   If you have any questions or comments for your Team Leader, use the phone, the scoris messaging system, or e-mail.

9.   Assistant Examiners will send a brief report on the performance of candidates to their Team Leader (Supervisor) via email by the end of the marking period. The report should contain notes on particular strengths displayed as well as common errors or weaknesses. Constructive criticism of the question paper/mark scheme is also appreciated.

10. For answers marked by levels of response:

    a. **To determine the level** – start at the highest level and work down until you reach the level that matches the answer

    b. **To determine the mark within the level**, consider the following:

Descriptor	Award mark
On the borderline of this level and the one below	At bottom of level
Just enough achievement on balance for this level	Above bottom and either below middle or at middle of level (depending on number of marks available)
Meets the criteria but with some slight inconsistency	Above middle and either below top of level or at middle of level (depending on number of marks available)
Consistently meets the criteria for this level	At top of level

INTRODUCTION

Your first task as an Examiner is to become thoroughly familiar with the material on which the examination depends. This material includes:

- the specification, especially the assessment objectives

- the question paper and its rubrics

- the mark scheme.

You should ensure that you have copies of these materials.

You should ensure also that you are familiar with the administrative procedures related to the marking process. These are set out in the OCR booklet **Instructions for Examiners**. If you are examining for the first time, please read carefully **Appendix 5 Introduction to Script Marking: Notes for New Examiners**.

Please ask for help or guidance whenever you need it. Your first point of contact is your Team Leader.

USING THE MARK SCHEME

Please study this Mark Scheme carefully. The Mark Scheme is an integral part of the process that begins with the setting of the question paper and ends with the awarding of grades. Question papers and Mark Schemes are developed in association with each other so that issues of differentiation and positive achievement can be addressed from the very start.

This Mark Scheme is a working document; it is not exhaustive; it does not provide 'correct' answers. The Mark Scheme can only provide 'best guesses' about how the question will work out, and it is subject to revision after we have looked at a wide range of scripts.

The Examiners' Standardisation Meeting will ensure that the Mark Scheme covers the range of candidates' responses to the questions, and that all Examiners understand and apply the Mark Scheme in the same way. The Mark Scheme will be discussed and amended at the meeting, and administrative procedures will be confirmed. Co-ordination scripts will be issued at the meeting to exemplify aspects of candidates' responses and achievements; the co-ordination scripts then become part of this Mark Scheme.

Before the Standardisation Meeting, you should read and mark in pencil a number of scripts, in order to gain an impression of the range of responses and achievement that may be expected.

Please read carefully all the scripts in your allocation and make every effort to look positively for achievement throughout the ability range. Always be prepared to use the full range of marks.

Level	Marks	Generic Mark Scheme questions 5, 8 and 11
4	7–8	The candidate demonstrates an excellent knowledge and understanding of a range of sociological material; the material is generally accurate and detailed. There is a well-developed line of reasoning which is clear and logically structured. The information presented is relevant and substantiated.
3	5–6	The candidate demonstrates a good knowledge and understanding of **either** a range of sociological material **or** some material in detail. The material is generally accurate but underdeveloped. There is a line of reasoning presented with some structure. The response may lack clarity at times and contain some inaccuracies. The response may be partial and undeveloped. The information has some relevance and is presented with limited structure. The information is supported by limited evidence.
1	1–2	The candidate demonstrates a limited knowledge and understanding of sociological material. Very little relevant sociological material is presented; the response contains considerable inaccuracy and lacks clarity. The information is basic and communicated in an unstructured way. The information is supported by limited evidence and the relationship to the evidence may not be clear.

AO2: Application (4 marks)

Level	Marks	Generic Mark Scheme questions 5, 8 and 11
4	4	The candidate demonstrates an excellent ability to apply relevant sociological material. The material is consistently and frequently related to the question.
3	3	The candidate demonstrates a good ability to apply sociological material. The material is generally relevant but is explicitly related to the question only occasionally.
2	2	The candidate demonstrates a basic ability to apply sociological material. The material is related to the question mainly implicitly and lacks focus on the question. The response may be generalised.
1	1	The candidate demonstrates a limited ability to apply sociological material. The material is tangential to the question and of marginal relevance.
0		No relevant application.

AO3: Analysis and Evaluation (8 marks)

Level	Marks	Generic Mark Scheme questions 5, 8 and 11
4	7–8	The candidate demonstrates an excellent ability to analyse and evaluate sociological material. Analysis and evaluation are sustained with a range of strengths and weaknesses discussed, giving the response a reflective tone. The candidate reaches a credible and fully supported critical conclusion.
3	5–6	The candidate demonstrates a good ability to analyse and evaluate sociological material. Some strengths and weaknesses are discussed explicitly but these may be underdeveloped. The candidate reaches a reasoned conclusion that is generally supported.
2	3–4	The candidate demonstrates a basic ability to analyse and evaluate. A few generalised analytic and / or evaluative points are raised or asserted with little supporting discussion. Arguments may simply be juxtaposed. If present, the conclusion is likely to be summative.
1	1–2	The candidate demonstrates a limited ability to analyse and evaluate. Only implicit or tangential analysis or evaluation is present. If present, the conclusion is likely to be asserted and unsupported.
0		No relevant analysis or evaluation.
