Mark Scheme for November 2020

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

	Blank page
	Evaluation

Subject Specific Marking Instructions

INTRODUCTION

Your first task as an Examiner is to become thoroughly familiar with the material on which the examination depends. This material includes:

- the specification, especially the assessment objectives
- the question paper and its rubrics
- the mark scheme.

You should ensure that you have copies of these materials.

You should ensure also that you are familiar with the administrative procedures related to the marking process. These are set out in the OCR booklet **Instructions for Examiners**. If you are examining for the first time, please read carefully **Appendix 5 Introduction to Script Marking: Notes for New Examiners**.

Please ask for help or guidance whenever you need it. Your first point of contact is your Team Leader.

USING THE MARK SCHEME

Please study this Mark Scheme carefully. The Mark Scheme is an integral part of the process that begins with the setting of the question paper and ends with the awarding of grades. Question papers and Mark Schemes are developed in association with each other so that issues of differentiation and positive achievement can be addressed from the very start.

This Mark Scheme is a working document; it is not exhaustive; it does not provide 'correct' answers. The Mark Scheme can only provide 'best guesses' about how the question will work out, and it is subject to revision after we have looked at a wide range of scripts.

The Examiners' Standardisation Meeting will ensure that the Mark Scheme covers the range of candidates' responses to the questions, and that all Examiners understand and apply the Mark Scheme in the same way. The Mark Scheme will be discussed and amended at the meeting, and administrative procedures will be confirmed. Co-ordination scripts will be issued at the meeting to exemplify aspects of candidates' responses and achievements; the co-ordination scripts then become part of this Mark Scheme.

Before the Standardisation Meeting, you should read and mark in pencil a number of scripts, in order to gain an impression of the range of responses and achievement that may be expected.

In your marking, you will encounter valid responses which are not covered by the Mark Scheme: these responses must be credited. You will encounter answers which fall outside the 'target range' of Bands for the paper which you are marking. Please mark these answers according to the marking criteria.

Please read carefully all the scripts in your allocation and make every effort to look positively for achievement throughout the ability range. Always be prepared to use the full range of marks.

LEVELS OF RESPONSE QUESTIONS:

The indicative content indicates the expected parameters for candidates' answers, but be prepared to recognise and credit unexpected approaches where they show relevance.

Using 'best-fit', decide first which set of level descriptors best describes the overall quality of the answer. Once the level is located, adjust the mark concentrating on features of the answer which make it stronger or weaker following the guidelines for refinement.

Highest mark: If clear evidence of all the qualities in the level descriptors is shown, the HIGHEST Mark should be awarded.

Lowest mark: If the answer shows the candidate to be borderline (i.e. they have achieved all the qualities of the levels below and show limited evidence of meeting the criteria of the level in question) the LOWEST mark should be awarded.

Middle mark: This mark should be used for candidates who are secure in the level. They are not 'borderline' but they have only achieved some of the qualities in the level descriptors.

Be prepared to use the full range of marks. Do not reserve (e.g.) highest level marks 'in case' something turns up of a quality you have not yet seen. If an answer gives clear evidence of the qualities described in the level descriptors, reward appropriately.

Quality of extended response will be assessed in questions marked with an (*). Quality of extended response is not attributed to any single assessment objective but instead is assessed against the entire response for the question.

	AO1	AO2	AO3	Quality of extended response
Comprehensive	A wide range of detailed and accurate knowledge that demonstrates fully developed understanding that shows full relevance to the demands of the question. Precision in the use of question terminology.	Knowledge and understanding shown is consistently applied to the context of the question, in order to form a: clear, developed and convincing analysis that is fully accurate. clear, developed and convincing interpretation that is fully accurate. detailed and substantiated evaluation that offers secure judgements leading to rational conclusions that are evidence based.	Quantitative, qualitative and/or fieldwork skills are used in a consistently appropriate and effective way and with a high degree of competence and precision.	There is a well-developed line of reasoning which is clear and logically structured. The information presented is relevant and substantiated.
Thorough	A range of detailed and accurate knowledge that demonstrates well-developed understanding that is relevant to the demands of the question. Generally precise in the use of question terminology.	Knowledge and understanding shown is mainly applied to the context of the question, in order to form a: clear and developed analysis that shows accuracy. clear and developed interpretation that shows accuracy. detailed evaluation that offers generally secure judgements, with some link between rational conclusions and evidence.	Quantitative, qualitative and/or fieldwork skills are used in a suitable way and with a good level of competence and precision.	There is a line of reasoning presented with some structure. The information presented is in the most-part relevant and supported by some evidence.

Reasonable	Some sound knowledge that demonstrates partially developed understanding that is relevant to the demands of the question. Awareness of the meaning of the terms in the question.	Knowledge and understanding shown is partially applied to the context of the question, in order to form a: sound analysis that shows some accuracy. sound interpretation that shows some accuracy. sound evaluation that offers generalised judgements and conclusions, with limited use of evidence.	Quantitative, qualitative and/or fieldwork skills are used in a mostly suitable way with a sound level of competence but may lack precision.	The information has some relevance and is presented with limited structure. The information is supported by limited evidence.
Basic	Limited knowledge that is relevant to the topic or question with little or no development. Confusion and inability to deconstruct terminology as used in the question.	Knowledge and understanding shows limited application to the context of the question in order to form a: simple analysis that shows limited accuracy. simple interpretation that shows limited accuracy. Un-supported evaluation that offers simple conclusions.	Quantitative, qualitative and/or fieldwork skills are used inappropriately with limited competence and precision.	The information is basic and communicated in an unstructured way. The information is supported by limited evidence and the relationship to the evidence may not be clear.

Question			Answer	Mark	Guidance
1	(a)		<p>Study Fig.1, which shows percentage change of population in rural areas of England between 2001 and 2015. Use <u>one</u> piece of evidence from Fig.1 to show how shifting flows of people have shaped the demographic profile of rural areas in England.</p> <ul style="list-style-type: none"> 65-69 age category increased by 56% (✓) urban-rural retirement migration (DEV) benefits of quieter rural environment / less traffic / lower cost housing / access to leisure activities (DEV) 45-49 age category increased by 21% (✓) urban-rural migration working at home (DEV) benefits of living in rural environment with internet access (DEV); no need to commute to work / weekly commute (DEV) 20-24 age category increased by 19% (✓) access to lower cost housing / safer rural environment for young families (DEV) prepared to commute to work in urban area (DEV) 30-34 age category decreased by 17% / 35-39 by 24% (✓) rural-urban migration, greater employment opportunities (DEV) dissatisfied by service provision / social opportunities in rural areas (DEV) 	3 AO2 x2 AO3 x1	<p>AO2 – 2 marks AO3 – 1 mark</p> <p>1 x 1 (✓) for specific evidence interpreted from the resource.</p> <p>2 x 1 (DEV) for drawing conclusions from the specific resource evidence to explain how shifting flows of people have shaped the demographic profile of rural areas in England.</p>
1	(b)		<p>Study Fig. 2, which shows cyclical economic change in the UK between 1978 and 2017. Using evidence from Fig. 2, suggest how cyclical economic change can have varied social impacts.</p> <p>Level 3 (6-8 marks) Application of knowledge and understanding is thorough. Analysis of the social impacts of cyclical economic change is clear, developed and accurate (AO2).</p>	8 AO2 x4 AO3 x4	<p>Indicative content AO2 – 4 marks Application of knowledge and understanding to analyse the social impacts of cyclical economic change could potentially include:</p> <ul style="list-style-type: none"> household income / disposable income varies in periods of boom and recession; this has varied social impacts such as access to / affordability of housing, health and education services, leisure activities, luxuries social impacts of booms and recessions have

		<p>Demonstrates thorough investigation of the graph to fully evidence the varied social impacts of cyclical economic change. Ideas about the social impacts of cyclical economic change are good (AO3).</p> <p>Level 2 (3-5 marks) Application of knowledge and understanding is reasonable. Analysis of the social impacts of cyclical economic change is sound and accurate (AO2).</p> <p>Demonstrates reasonable investigation of the graph to fully evidence the social impacts of cyclical economic change. Ideas about the social impacts of cyclical economic change are sound (AO3).</p> <p>Level 1 (1-2 marks) Application of knowledge and understanding is basic. Analysis of the social impacts of cyclical economic change is basic and accurate (AO2).</p> <p>Demonstrates basic investigation of the graph providing limited evidence of the social impacts of cyclical economic change. Ideas about the social impacts of cyclical economic change are limited, with limited or no link to resource evidence (AO3).</p> <p>0 marks No response or no response worthy of credit.</p>		<p>disproportionate effects on disadvantaged groups; for example, in recession low income households less able to withstand periods of unemployment / reduced income than wealthier households</p> <ul style="list-style-type: none"> • social impacts of periods of economic growth, (new investment, creation of job opportunities, reduced unemployment, increased household income) include raising standards of living, lifting people out of poverty, increased household spending on housing, health, education, leisure, luxury items. • social impacts of periods of recession, (higher unemployment, reduced household / disposable income) include cuts in household spending on recreation, health, education, housing / rent; falling standard of living • strong link between unemployment and health, especially mental health, during periods of recession and afterwards • impact on government spending on social services such as differing decisions to spend on health, education, housing in periods of recession and boom • the spatial dimension of recession such as the impact of structural unemployment leading to service decline in particular areas, exacerbating social inequality geographically <p>AO3 - 4 marks Evidence from investigation and interpretation of the graph could potentially include:</p> <p><i>Decline</i></p> <ul style="list-style-type: none"> • periods of decline in economic growth such as 2007-09 (+3.5% falling to -5.2%) • periods of rising unemployment such as 2007-11 (5.3%-8.2%) <p><i>Growth</i></p>
--	--	---	--	---

					<ul style="list-style-type: none"> • periods of economic growth such as 2009-10 (-5.2% rising to +1.8%) • periods of falling unemployment such as 2013-17 (7.8%-4.4%) <p>Also, credit reference to varied duration of booms / recessions and rates of change in GDP growth / unemployment.</p>
1	(c)		<p>Suggest <u>two</u> ways that time-space compression can influence our sense of place.</p> <p>Level 3 (5-6 marks) Demonstrates thorough knowledge and understanding of how our sense of place can be influenced by time-space compression. This will be shown by including well-developed ideas about the links between time-space compression and sense of place.</p> <p>Level 2 (3-4 marks) Demonstrates reasonable knowledge and understanding of how our sense of place can be influenced by time-space compression. This will be shown by including developed ideas about the links between time-space compression and sense of place.</p> <p>Level 1 (1-2 marks) Demonstrates basic knowledge and understanding of how our sense of place can be influenced by time-space compression. There may be simple ideas about the links between time-space compression and sense of place.</p> <p>0 marks No response or no response worthy of credit.</p>	6 AO1 x6	<p>Indicative content</p> <p>AO1 – 6 marks Knowledge and understanding of ways that time-space compression can influence our sense of place could potentially include:</p> <ul style="list-style-type: none"> • improved transport and communications, overcoming spatial / distance barriers, has led to global trade connections, with goods in shops in ACs sourced from across the world providing a sense of global connection on the high street; or has influenced our emotional attachment to / perceptions of place • easier flows / transfers of money / investments, through advances in e-communications, leading to creation of financial hubs in ACs such as changed sense of place in Canary Wharf from dockland to service centre; or development of outsourcing, such as changed sense of place in the industrial structure of Bangalore • flows of people and ideas across the world occur more easily, for example increased labour mobility, which has influenced sense of place by influencing the ethnic diversity in some places, changing the cultural and built environment • spread of global brands now trading on high streets, threatens uniqueness of high streets, smaller independent traders may go out of business, can affect sense of place negatively with feelings of dislocation

1	(d)*	<p>‘Successful rebranding of a place is rarely the product of a single strategy.’ To what extent do you agree?</p> <p>AO1 Level 3 (6–8 marks) Demonstrates thorough knowledge and understanding of rebranding strategies. The answer should include accurate place-specific detail.</p> <p>Level 2 (3–5 marks) Demonstrates reasonable knowledge and understanding of rebranding strategies. The answer should include some place-specific detail which is partially accurate.</p> <p>Level 1 (1–2 marks) Demonstrates basic knowledge and understanding of rebranding strategies. There is an attempt to include place-specific detail but it is inaccurate.</p> <p>0 marks No response or no response worthy of credit.</p> <p>AO2 Level 3 (6–8 marks) Application of knowledge and understanding is thorough. Analysis is clear, developed and accurate. Evaluation of the extent to which successful rebranding is the product of more than one strategy is detailed. Judgements are secure and evidence based leading to rational conclusions.</p> <p>Level 2 (3–5 marks) Application of knowledge and understanding is reasonable. Analysis is sound and shows some accuracy. Evaluation of the extent to which successful rebranding is the product of more than one strategy is sound. Judgements and conclusions are generalised,</p>	<p>16 AO1 x8 AO2 x8</p>	<p>Indicative content</p> <p>AO1 – 8 marks Knowledge and understanding of rebranding strategies could potentially include:</p> <ul style="list-style-type: none"> • market-led strategies such as those of private investors taking the lead, including property developers and business owners • top-down strategies involving large scale organisations, often public sector such as local authority planning departments • flagship development such as large-scale one-off property developments using distinctive architecture – a catalyst for further development • legacy, for example, where investment and regeneration follows major sporting event • events and themes, such as major festivals or designation as capital of culture, acting as catalyst for cultural development and further urban regeneration <p>AO2 – 8 marks Application of knowledge and understanding to analyse and evaluate the extent to which successful rebranding is a product of more than one strategy could potentially include:</p> <ul style="list-style-type: none"> • evaluation of a single strategy which can be successful in rebranding a place • evaluation of a range of strategies which can be involved / required for successful rebranding of a place • the range of strategies may depend on the scale and nature of the place designated for rebranding
---	------	--	--	--

		<p>with limited use of evidence.</p> <p>Level 1 (1–2 marks) Application of knowledge and understanding is basic. Analysis is simple and limited in accuracy. Evaluation of the extent to which successful rebranding is the product of more than one strategy is un-supported and conclusions are simple.</p> <p>0 marks No response or no response worthy of credit.</p> <p>Quality of extended response Level 3 There is a well-developed line of reasoning which is clear and logically structured. The information presented is relevant and substantiated. Level 2 There is a line of reasoning presented with some structure. The information presented is in the most-part relevant and supported by some evidence. Level 1 Information is basic and communicated in an unstructured way. The information is supported by limited evidence and the relationship to the evidence may not be clear.</p>		<ul style="list-style-type: none"> the involvement of a range of different players / stakeholders, each with different inputs, may lead to a range of strategies which are co-ordinated rebranding may take place over a period of time involving different strategies at different stages only a single element may be needed for a successful rebranding process (architecture, heritage, retail, art, sport, food) or more than one of these elements may be required to contribute to a successful rebranding strategy

5	(b)		<p>Explain how <u>two</u> different types of threat to territorial integrity can be a cause of conflict.</p> <p>Level 2 (3-5 marks) Application of knowledge and understanding is thorough. Analysis of how threats to territorial integrity can cause conflict is sound and shows accuracy.</p> <p>Level 1 (1-2 marks) Application of knowledge and understanding is basic. Analysis of how threats to territorial integrity can cause conflict is simple and there is limited accuracy.</p>	<p>5 AO2 x5</p>	<p>AO2 – 5 marks</p> <p>Application of knowledge and understanding to analyse how threats to territorial integrity can be a cause of conflict could potentially include:</p> <ul style="list-style-type: none"> separatism / claims for secession, people seeking independence or autonomy may be marginalised or suppressed by a state government leading to demonstrations / violence / terrorism contested territory where control over land,

			0 marks No response or no response worthy of credit.		<p>people and borders is disputed, such as the annexation of Crimea or conflict over contested islands in the South China Sea of strategic importance</p> <ul style="list-style-type: none"> • competition for exploitation of the same or scarce resource, such as contested maritime boundaries which are disputed over oil and gas resources, or the conflict over Kashmir for water supply • ethnic partition where arbitrary political boundaries established in the past, such as the legacy of colonialism in Africa, has led to conflict • government inability to control contested areas as a result of inadequate state apparatus, such as police and military, has led to conflict between authorities and terrorists / traffickers / smugglers, such as in Mali
5	(c)		<p>With reference to a <u>case study</u> of <u>one</u> country, explain how challenges to its sovereignty can have impacts on people.</p> <p>Level 3 (6–8 marks) Demonstrates thorough knowledge and understanding of factors that explain how challenges to sovereignty can have impacts on people. This will be shown by including well-developed explanations. The answer should include accurate place-specific detail.</p> <p>Level 2 (3–5 marks) Demonstrates reasonable knowledge and understanding of factors that explain how challenges to sovereignty can have impacts on people. This will be shown by including developed explanations. The answer should include some place-specific detail which is partially accurate.</p>	8 AO1 x8	<p>Indicative content AO1 – 8 marks</p> <p>Knowledge and understanding of factors that explain how challenges to sovereignty can have impacts on people could potentially include:</p> <ul style="list-style-type: none"> • death and injury to civilians during demonstrations, rioting and military conflict • damage to people's homes and property in cases of armed conflict • restricted access to services such as health care / medicines, food and education during any conflict • disruption of livelihood • population displacement, refugees and IDPs • negative impacts of some TNCs where there is exploitation of resources and workers • famine, for example during periods of civil war

		<p>Level 1 (1–2 marks) Demonstrates basic knowledge and understanding of factors that explain how challenges to sovereignty can have impacts on people. This will be shown by including simple explanations. There is an attempt to include place-specific detail but it is inaccurate.</p> <p>0 marks No response or no response worthy of credit.</p>		<p>Reference to a case study must be included; there is no requirement for a candidate to make reference to more than one case study.</p> <p>Possible examples could include, Ukraine, South Sudan, Mali, Afghanistan.</p>
