**Mark Scheme for June 2018**

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

Here are the subject specific instructions for this question paper

### Recording of marks – Section A

- Give a clear indication of how marks have been awarded. For questions without a holistic MS, this should be one tick per mark awarded.
- Record the numerical mark for the response to each question or part-question **unringed** in the right-hand margin next to the question total. Show the total for Section A as a single **ringed** mark in the right-hand margin at the end of the section.
- If a candidate continues his/her answer in the answer booklet, note this on the script **for each question where this occurs** and write the total mark, **ringed**, for the question or part-question at the end of the response in the answer booklet; then transfer the mark, **unringed**, to its correct place on the question paper.

### Recording of marks – Section B

- Record the numerical mark for each question as a single **ringed** mark in the right-hand margin at the end of the essay.

**Recording of marks – General**

- Record the numerical mark for each question as a single **ringed** mark in the right-hand margin at the end of the essay.
- Transfer ringed totals to the front page of the script, where they should be totalled.
- Show evidence that you have seen the work on every page of a script on which the candidate has made a response.
- Cross through every blank page to show that you have seen it.
