## PREPARATION FOR MARKING SCORIS

### MARKING INSTRUCTIONS

1. Make sure that you have accessed and completed the relevant training packages for on-screen marking: *scoris assessor Online Training, OCR Essential Guide to Marking*.
2. Make sure that you have read and understood the mark scheme and the question paper for this unit. These are posted on the RM Cambridge Assessment Support Portal <http://www.rm.com/support/ca>
3. Log-in to scoris and mark the **required number** of practice responses (“scripts”) and the **required number** of standardisation responses.

YOU MUST MARK 10 PRACTICE AND 10 STANDARDISATION RESPONSES BEFORE YOU CAN BE APPROVED TO MARK LIVE SCRIPTS.

### TRADITIONAL

Before the Standardisation meeting you must mark at least 10 scripts from several centres. For this preliminary marking you should use **pencil** and follow the **mark scheme**. Bring these **marked scripts** to the meeting.

### MARKING

1. Mark strictly to the mark scheme.
2. Marks awarded must relate directly to the marking criteria.
3. The schedule of dates is very important. It is essential that you meet the scoris 50% and 100% (traditional 50% Batch 1 and 100% Batch 2) deadlines. If you experience problems, you must contact your Team Leader (Supervisor) without delay.

4. If you are in any doubt about applying the mark scheme, consult your Team Leader by telephone, email or via the scoris messaging system.
5. Work crossed out:
  - a. where a candidate crosses out an answer and provides an alternative response, the crossed out response is not marked and gains no marks
  - b. if a candidate crosses out an answer to a whole question and makes no second attempt, and if the inclusion of the answer does not cause a rubric infringement, the assessor should attempt to mark the crossed out answer and award marks appropriately.
6. Always check the pages (and additional objects if present) at the end of the response in case any answers have been continued there. If the candidate has continued an answer there then add a tick to confirm that the work has been seen.
7. There is an NR (No Response) option. Award NR (No Response)
  - if there is nothing written at all in the answer space
  - OR if there is a comment which does not in any way relate to the question (e.g. 'can't do', 'don't know')
  - OR if there is a mark (e.g. a dash, a question mark) which isn't an attempt at the question.

Note: Award 0 marks – for an attempt that earns no credit (including copying out the question).
8. The scoris **comments box** is used by your Team Leader to explain the marking of the practice responses. Please refer to these comments when checking your practice responses. **Do not use the comments box for any other reason.**  
If you have any questions or comments for your Team Leader, use the phone, the scoris messaging system, or e-mail.
9. Assistant Examiners will send a brief report on the performance of candidates to their Team Leader (Supervisor) via email by the end of the marking period. The report should contain notes on particular strengths displayed as well as common errors or weaknesses. Constructive criticism of the question paper/mark scheme is also appreciated.
10. For answers marked by levels of response:
  - a. **To determine the level** – start at the highest level and work down until you reach the level that matches the answer
  - b. **To determine the mark within the level**, consider the following:

Descriptor	Award mark
On the borderline of this level and the one below	At bottom of level
Just enough achievement on balance for this level	Above bottom and either below middle or at middle of level (depending on number of marks available)
Meets the criteria but with some slight inconsistency	Above middle and either below top of level or at middle of level (depending on number of marks available)
Consistently meets the criteria for this level	At top of level

## Subject-specific Marking Instructions

### INTRODUCTION

Your first task as an Examiner is to become thoroughly familiar with the material on which the examination depends. This material includes:

- the specification, especially the assessment objectives
- the performance text(s) which candidates have studied
- the question paper and its rubrics
- the mark scheme.

You should ensure that you have copies of these materials.

You should ensure also that you are familiar with the administrative procedures related to the marking process. These are set out in the OCR booklet **Instructions for Examiners**. If you are examining for the first time, please read carefully **Appendix 5 Introduction to Script Marking: Notes for New Examiners**.

Please ask for help or guidance whenever you need it. Your first point of contact is your Team Leader.

### USING THE MARK SCHEME

Please study this Mark Scheme carefully. The Mark Scheme is an integral part of the process that begins with the setting of the question paper and ends with the awarding of grades. Question papers and Mark Schemes are developed in association with each other so that issues of differentiation and positive achievement can be addressed from the very start.

This Mark Scheme is a working document; it is not exhaustive; it does not provide 'correct' answers. The Mark Scheme can only provide 'best guesses' about how the question will work out, and it is subject to revision after we have looked at a wide range of scripts.

The Examiners' Standardisation Meeting will ensure that the Mark Scheme covers the range of candidates' responses to the questions, and that all Examiners understand and apply the Mark Scheme in the same way. The Mark Scheme will be discussed and amended at the meeting, and administrative procedures will be confirmed. Co-ordination scripts will be issued at the meeting to exemplify aspects of candidates' responses and achievements; the co-ordination scripts then become part of this Mark Scheme.

Before the Standardisation Meeting, you should read and mark in pencil a number of scripts, in order to gain an impression of the range of responses and achievement that may be expected. **In your marking, you will encounter valid responses which are not covered by the Mark Scheme: these responses must be credited.** You will encounter answers which fall outside the 'target range' of levels for the paper which you are marking. Please mark these answers according to the marking criteria.

Please read carefully all the scripts in your allocation and make every effort to look positively for achievement throughout the ability range. Always be prepared to use the full range of marks.

#### INFORMATION AND INSTRUCTIONS FOR EXAMINERS

- 1 The co-ordination scripts provide you with *examples* of the standard of each band. The marks awarded for these scripts will have been agreed by the Team Leaders and will be discussed fully at the Examiners' Co-ordination Meeting.
- 2 The specific task-related indicative content for each question will help you to understand how the band descriptors may be applied. However, this indicative content does not constitute the mark scheme: it is material that candidates might use, grouped according to each assessment objective tested by the question. It is hoped that candidates will respond to questions in a variety of ways. Rigid demands for 'what must be a good answer' would lead to a distorted assessment. THE INDICATIVE CONTENT FOR EACH TASK provides an indication of what candidates are likely to cover. **The notes are neither prescriptive nor exhaustive:** candidates should be rewarded for any relevant response which appropriately addresses the Assessment Objectives.
- 3 Candidates' answers must be relevant to the question. Beware of prepared answers that do not show the candidate's thought and which have not been adapted to the thrust of the question. Beware also of answers where candidates attempt to reproduce interpretations and concepts that they have been taught but have only partially understood.

Set	Suitability	Justification example
Set 1	White blank canvas stage (1) Proscenium arch stage (1) Allows for projections (1) Use of lasers (1) Items can be hung on the set (1) Set can be added/changed to signify different rooms (1) Use of lighting to symbolise rooms/time of day (1)	For a performance of <i>Misterman</i> this would work well as a blank canvas space <u>which could be dressed or projected on it to look like a warehouse</u> . (+1) The cables etc. could be hanging over the flats, it would be possible to also <u>project the image of tapes scrolling when voiceover is playing</u> . (+1) This could also be used for <i>Find Me</i> , <u>as the first stage direction indicates a bare stage</u> (+1) and <u>3 actors standing in the surrounding darkness</u> . (+1)
Set 2	Proscenium arch stage (1) Having an audience that would sit end-on (proscenium arch) with an orchestra pit for the musicians (1) The hanging down of the lights (1) The bench in the centre of the stage for when the children play (1) The balcony section on a higher level (1) The archways-like doors into houses (1) and the staircase coming down to the stage floor (1)	For a performance of <i>Blood Brothers</i> this would work well; because it is a musical <u>you would need an orchestra pit for the musicians</u> . (+1) The hanging of the lights can be <u>dressed to look like street lighting</u> , particularly as a lot of scenes take place outside the houses <u>and they can also be dressed to look like internal lights when needed</u> . (+1) The <u>bench is versatile</u> for when the children are playing as young children, can be used for the meeting bench in scenes with Eddie, Mickey and Linda and for the school bus and school scenes. (+1) The balcony <u>allows for a segregation of higher and working class</u> very visibly on stage. (+1)

Question	Answer	Marks
	<p>Having the archways as entrances and exits is a good way of <u>forming the doorways to the houses</u>. (+1)</p> <p>The staircase can be used by the Narrator <u>as a place to stand between the two families</u>. (+1)</p>	
Set 3	<p>A platform raised 'in the round' stage offers flexibility (1)</p> <p>Having the audience all the way around the set (1)</p> <p>Having several entrances and exits keeps the pace of the performance moving (1)</p> <p>The aisles (or staircase) coming onto to the stage floor (1)</p>	<p>For a performance of <i>Gizmo</i>, <u>this could work as a presentation arena at the beginning and end of the performance text</u>. (+1)</p> <p>Having the audience all the way around the set 'in the round' works with <u>the idea of feeling trapped</u>. (+1)</p> <p>The wooden floor could be used to <u>resemble a number of indoor locations</u> (+1), <u>small furniture items (or props) could be brought on and taken off easily</u>. (+1)</p> <p>There are several entrances and exits <u>which would work for the gangs coming off and on</u>. (+1)</p>
Set 4	<p>Proscenium arch stage (1)</p> <p>Audience able to sit on 2 sides and observe (1)</p> <p>The grey, depressing concrete surround to the house (1)</p> <p>The staircase and doorway of the ground floor (1)</p> <p>A revolve possible in the floor (1)</p> <p>The broken looking home and shattered fragile structure (1)</p>	<p>For a performance of <i>Death of a Salesman</i>, it says that the performance text is 'certain private conversations', having <u>the audience enclose them</u> (+1) <u>allows them to listen in</u> to the private conversations. (+1)</p> <p>The colour and concrete look to the outside wall of the set and the towering angular shapes, <u>represent the solid vault of apartment houses</u> (+1) and <u>how Willy feels trapped and can't get fresh air</u>. (+1)</p> <p>The action that takes place upstairs and in the kitchen can be travelled between, via the staircase or, if the photograph is interpreted as having a revolve in the floor, <u>the staircase could be used to go up and then down on the other side into another room</u> in the house while the stage revolves for the audience. (+1)</p> <p>Having a family home that looks so shattered could be representative of</p>

Question	Answer	Marks
	<p>The family dining table located in the kitchen (1)</p> <p><u>the chased American Dream (+1) or the credit bills racking up against the family. (+1)</u></p> <p>The fragile structure could also be <u>a symbol of Willy's mind (+1)</u> and the <u>fragility of his relationship with his wife and son because of the way he behaves. (+1)</u></p> <p><u>Traditional value of the family home</u> and have the family meal/table central to all of the action. (+1)</p>	
Set 5	<p>Thrust stage (1)</p> <p>Audience able to sit on 3 sides and observe (1)</p> <p>The wooden frame in the set splitting the space into two rooms (1)</p> <p>A raised stage area separating the performers from the audience (1)</p> <p>Blank canvas above the set which can be used for projections (1)</p>	<p>For a performance of <i>Missing Dan Nolan</i>, as he is a boy that went missing following a fishing trip with his friends, it makes sense that this <u>staging is representative of the loving home he left</u>. The action can take place on this setting. (+1)</p> <p>Having a lower / separate area by the audience could be <u>used to separate the action that takes place inside and outside (+1)</u></p> <p>The canvas above the stage could be <u>lit to show dark weather with the stage in darkness (+1)</u>, when the characters are outside which <u>could be used to symbolise when Dan disappeared (+1)</u></p>
Set 6	<p>Proscenium arch stage (1) or site specific venue (1)</p> <p>The action can use various actors positioned on a raised level (1)</p> <p>Scenes take place in a school setting with a teacher and classroom (1)</p>	<p>For a performance of <i>Find Me</i> this set would work because of the black and white nature of the stage <u>and the idea of very black and white views around autism and mental health. (+1)</u></p> <p>The opening action would work with the chairs downstage and <u>the three Veritys positioned on those as a striking first image. (+1)</u></p> <p>The tables and chairs that are located in the centre of the stage would <u>work for the school and the restaurant scenes. (+1)</u> Although not visible from the photo, you could have in the round, thrust or traverse staging</p>

Question	Answer	Marks
	<p>The set allows the characters to bring on their own chairs/set/props (1)</p> <p>Doctors' waiting rooms work with the layout of chairs and the door (1)</p> <p><u>with this design. (+1)</u></p> <p>The layout of the chairs and the <u>big doors works for waiting areas, for the GP and also for when Verity is then in the mental hospital.</u> (+1)</p> <p>The random paintings on the wall could be <u>representative of key elements of the performance</u>, (+1) for example a fish with 'Poisson' written underneath which <u>links to her outburst over them selling poison in the French restaurant.</u> (+1)</p> <p>This stage could also be used for <i>Misterman</i>, as the different columns and partitions on the stage <u>could be used to represent the locations of the various characters</u> Thomas tells us about throughout the performance text. (+1)</p>

9*	<p><b>Evaluate the visual impact a live production had on you as an audience member.</b></p> <p>You must include examples from the live performance you have seen in your answer. At the start of your answer state the name, venue and date (month and year) of the live performance you have seen.</p> <p><b>INSTRUCTION TO CANDIDATES:</b> You must answer this question referring to a different performance text to the one you have studied for Section A.</p> <p>The question is asking the candidate to evaluate the visual impact of a production and its impact on the performance as a whole.</p> <p><i>Quality of extended response is assessed in this question.</i></p> <p>The visual impact should be considered in relation to the audience and the communication of the theatrical ideas.</p> <p>The visual impact should be evaluated from a personal perspective while demonstrating that the candidate understands live theatrical performance.</p> <p>Examples should be given to support any evaluative statements about the performance, they should focus on the visual impact.</p> <p>Candidates may have seen a minimalist performance but there is still scope through performance style and costumes. Discussing how the lack of design elements (e.g. set, props etc.) has an impact is a valid approach to the question.</p> <p>There are a number of ways that the candidate may develop a response. The idea of theatre engaging the audience through visual means is at the centre of the question and therefore should encourage candidates to consider the visual communication of theatre and how theatre makers communicate in a broad sense.</p> <p>The most successful responses are likely to be those rooted in the question and which use the performance seen as the starting point for the response and offer examples alongside this, rather than simply listing all aspects of the production with no evaluation.</p> <p>The response needs to be balanced by (a) seeing the candidate's understanding of how Drama and Theatre are developed and performed with (b) evaluating the work of the others.</p> <p>Appropriate use of drama and theatre terminology is expected and credited <b>only</b> for AO3.</p> <p>Candidates may refer to the following in their answers.</p> <ul style="list-style-type: none"> <li>• All visual aspects – lighting, special effects, costume, projection, makeup.</li> <li>• The acting including any physically visual elements e.g. physical theatre/dance/choreography/stage fighting that also impacted on the production.</li> </ul>	<p>30 (10 marks for AO3, 20 marks for AO4)</p>
