ADDITIONAL ANSWER SPACE

If additional space is required, you should use the following lined page(s). The question number(s) must be clearly shown in the margins.

A vertical column of 20 horizontal dotted lines for writing answers. The lines are evenly spaced and extend across the width of the page. A vertical line is positioned to the left of the first dotted line, creating a margin for writing the question number.

This image shows a blank sheet of handwriting practice paper. It features a vertical red line on the left side, likely representing a margin or binding. To the right of this margin, there are approximately 22 horizontal grey lines spaced evenly down the page. These lines provide a guide for letter height and placement. The paper is otherwise empty, with no text or other markings.
