Home Economics Child Development

General Certificate of Secondary Education

Unit **B013**: Principles of Child Development

Mark Scheme for June 2011

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of pupils of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, OCR Nationals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by Examiners. It does not indicate the details of the discussions which took place at an Examiners' meeting before marking commenced.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the Report on the Examination.

OCR will not enter into any discussion or correspondence in connection with this mark scheme.

Question	Expected Answer	Mark	Additional Guidance
3	<p>Describe methods parents or carers could use to discipline a child.</p> <p>Explain the social skills a child needs to learn in preparation for starting school.</p> <p>Marks are allocated according to the quality of the response. Candidates should be able to show their depth of knowledge and understanding, using correct terminology.</p> <p>In order to achieve a High Level response, both areas must be addressed in detail.</p> <p>A candidate answering only one part of the question well remains in the Limited Response level and can access up to 7 marks only. Must be answered well, with clear descriptions and/or explanations.</p> <p>If candidates respond by giving answers in a list, they remain in the Low Level response.</p> <p>Bullet point sentences can achieve up to the Limited Response level only.</p> <p>High Level Response: 13-15 The candidate describes in detail methods of developing good discipline in a child and gives comprehensive explanations the social skills a child needs to learn ready for school. The information will be presented in a clear and organised way. A whole range of specialist terms are used with precision. The candidate can demonstrate the accurate use of spelling, punctuation and grammar.</p> <p>Good/Satisfactory Response 9-12 The candidate describes some methods of developing good discipline in a child and gives some explanations of the social</p>	[15]
