B061/02
INFORMATION AND COMMUNICATION
TECHNOLOGY
ICT in Today's World
WEDNESDAY 13 MAY 2015: Morning
DURATION: 1 hour
plus your additional time allowance
MODIFIED ENLARGED 24pt

Candidate forename		Candidate surname	
Centre number			
		Candidate number	

Candidates answer on the Question Paper.

OCR SUPPLIED MATERIALS:
Insert for Question 3 (Fig. 2) and
Question 4 (Fig. 4 and Table 1)

OTHER MATERIALS REQUIRED:
None

READ INSTRUCTIONS OVERLEAF

INSTRUCTIONS TO CANDIDATES

Write your name, centre number and candidate number in the boxes on the first page. Please write clearly and in capital letters.

Use black ink. HB pencil may be used for graphs and diagrams only.

Answer ALL the questions.

Read each question carefully. Make sure you know what you have to do before starting your answer.

Write your answer to each question in the space provided. Additional paper may be used if necessary but you must clearly show your candidate number, centre number and question number(s).

INFORMATION FOR CANDIDATES

The number of marks is given in brackets [] at the end of each question or part question.

The total number of marks for this paper is 60.

Quality of written communication is assessed in questions marked with an asterisk (*).

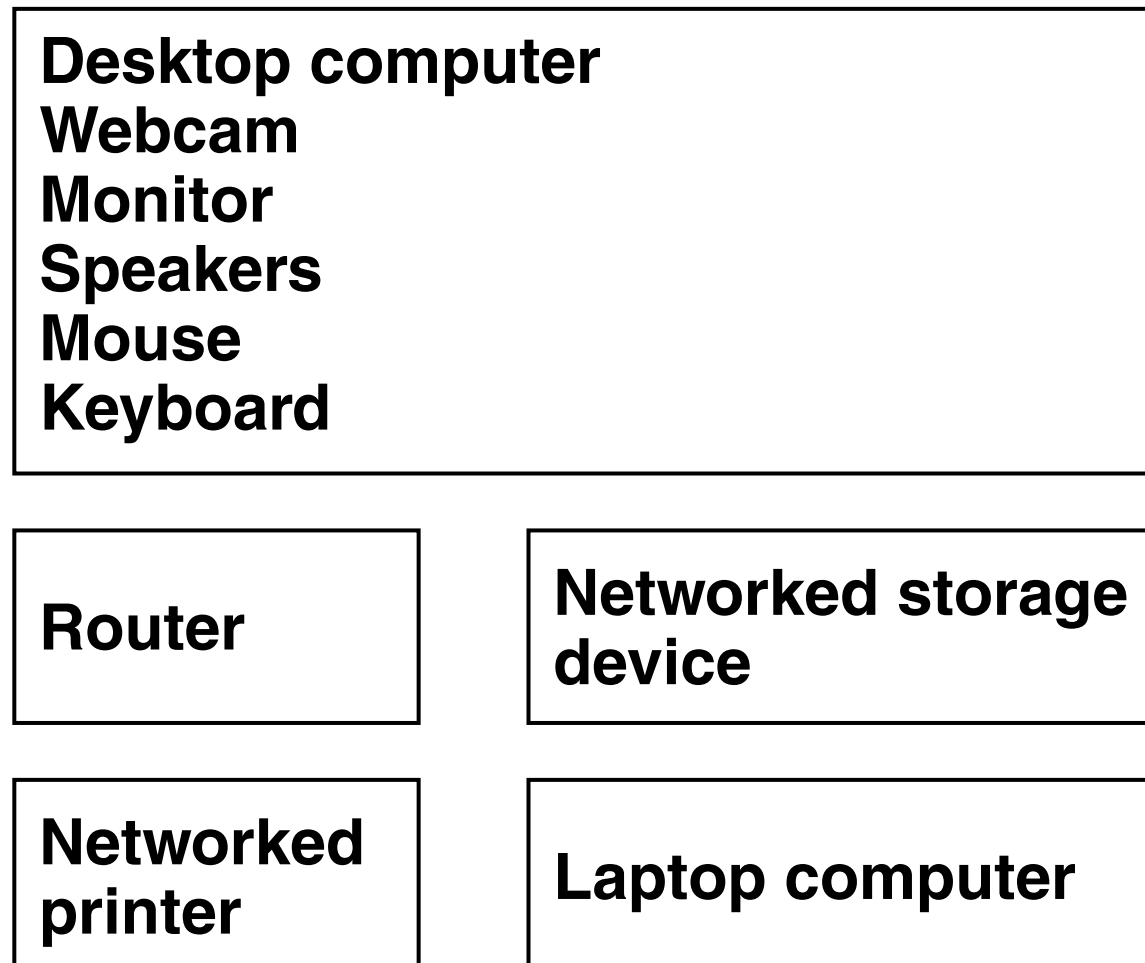

Any blank pages are indicated.

BLANK PAGE

Answer ALL the questions.

- 1 Sarah uses the desktop computer system and the laptop computer described in FIG. 1.**

FIG. 1

- (a) Sarah uses the desktop computer system to play computer games.**

(i) Identify TWO input devices in FIG. 1.

1 _____

2 _____

[2]

(ii) Identify ONE other input device that could be added to the desktop computer system to make playing games easier.

_____ **[1]**

(iii) Identify TWO output devices in FIG. 1.

1 _____

2 _____

[2]

(b) State ONE communication device in the desktop computer system that is used to connect it to the network.

_____ **[1]**

(c) Sarah uses instant messaging to contact other players when playing online computer games.

(i) Why would Sarah use instant messaging to contact other players?

_____ **[4]**

Sarah often plays online games with people she does not know.

(ii) Explain ONE DISADVANTAGE of Sarah using instant messaging when playing online games with people she does not know.

_____ **[2]**

(d) Sarah’s computer system includes a networked storage device.

Describe ONE benefit of using a NETWORKED storage device.

_____ **[2]**

- Explain how Sarah could try to make sure that the personal and financial details stored on her computer are protected.**

Marks will be awarded for the quality of written communication in your answer.

[illegible]

2 A marketing presentation to show to a large group of supermarket managers has been created.

State FIVE features that could be used in a slideshow presentation that could not be used in a written report.

1

2

3

4

5

[5]

- 3 William has collected data about the queues at different supermarket checkouts on four different days. He has counted the number of people in each queue at 1 pm.**

He uses a spreadsheet with formulas to store some of the data. His spreadsheet is shown in FIG. 2 in the Insert.

(a) William has entered formulas into cells B10 and B13.

- (i) Write down the MOST suitable formula for use in cell B10.**

_____ [2]

- (ii) Write down the MOST suitable formula for use in cell B13.**

_____ [2]

- (iii) When William was creating the spreadsheet he entered the formulas into cells B10 and B13. He wants to put similar formulas into cells C10 to E10 and into C13 to E13.**

Describe how William could do this without typing each formula again.

_____ [3]

(b) William used cell formatting on some of the cells to make the spreadsheet easier to read and understand.

(i) Describe what William has done to format the label 'Total number of people queuing at all checkouts'.

[4]

(ii) Cells B13 to E13 are formatted so that the contents appear as whole numbers.

Explain why the cells are formatted in this way.

[2]

- 4 The programmable microwave oven in FIG. 3 is used for cooking food. It has an embedded computer system that the user can program by entering the required power setting and cooking time.

FIG. 3

When the user presses the start button, the system makes three checks before starting the microwave oven. First it checks that the time has been set, then that the power has been set and then that the door is closed.

The system will stop the oven if:

the cancel button is pressed

or

the set time is reached.

Part of the sequence of instructions to control the system is shown in FIG. 4 in the Insert. Some of the labels are missing and are shown in TABLE 1 in the Insert.

Choose words or phrases from TABLE 1 to complete the labels A, B, C, D, E and F on FIG. 4 in the Insert. [6]

***5 Explain the benefits AND drawbacks of using the internet to arrange a holiday that includes several different countries.**

Marks will be awarded for the quality of written communication in your answer.

[illegible]

6 (a) State TWO uses of holographic imaging.

1 _____

2 _____

[2]

(b) Describe the impact of 3D printing on the manufacturing industry.

[4]
